

Micro Focus

# Universe 2018

13-15 MARCH | GRIMALDI FORUM MONACO

## Protect (Security) customer forum

Experience the power of a portfolio designed to address your toughest problems in this hybrid IT world.

The shift to hybrid IT and DevOps has made it imperative for organizations to move beyond securing the periphery, and take a holistic approach to securing their users, apps, data and the interactions between them.

Join Protect at Micro Focus Universe to learn how to:

- Secure your users, applications and data by building security into the fabric of your IT infrastructure
- Enable the continuous deployment and delivery of software without security being the roadblock
- Neutralize breach impacts by securing sensitive data-at-rest, in-motion and in-use
- Provide an integrated approach to identity access and security

### Customer speakers include

Gruner Group Switzerland  
MTRIX

### Solutions featured in sessions and demos

Micro Focus ArcSight, Micro Focus Fortify, Micro Focus Net IQ, Micro Focus Voltage, ZENworks Endpoint Management
