Release Notes for ArcSight Content-Categorization Updates

This guide provides Release Notes for ArcSight Content-Categorization Updates.

Content AUP which is also known as ArcSight Content-Categorization Updates is delivered as Patch and is available through ArcSight SmartConnectors License SKU, once every two weeks. Customers who are still on legacy ArcSight product structure who have not migrated to ArcSight Standard Edition license structure may obtain the AUP updates through most current version of core product downloads. There is a list of signatures within which the categorization gets modified which changes with every release.

Intended Audience

This guide provides information for IT administrators who are responsible for managing the ArcSight SmartConnectors.

Additional Documentation

The ArcSight SmartConnectors documentation library includes the following resources:

- *Installation Guide for ArcSight SmartConnectors*, which provides detailed information about installing SmartConnectors.
- *Configuration Guides for ArcSight SmartConnectors*, which provides information about configuring SmartConnectors to collect events from different sources.
- *Release Notes for ArcSight SmartConnectors*, which provides information about the latest release

For the most recent version of this guide and other ArcSight SmartConnector documentation resources, visit the [documentation site for ArcSight SmartConnectors](#).
