# What's New

ArcSight Recon Default Content is now available on OpenText Marketplace. You can download it [here](#).

## Dashboard Modernization across the Foundation and MITRE Folders

In ArcSight Recon Default Content 25.4, dashboards have been modernized to align with the new UX look and feel. The update enhances visual consistency, usability, and performance across all dashboards.

### Key Enhancements

- Updated dashboard layouts and components for a cleaner, more intuitive interface.
- Enhanced alignment with the UX standards for a cohesive experience.
- Added support for new visualization widgets, including the Parabox chart, enabling richer and more flexible data exploration.
- Improved responsiveness and accessibility across devices.

### Updated Foundation Dashboards

- Standard Content\Foundation\Events Overview\Least Common Events
- Standard Content\Foundation\Events Overview\Most Common Events
- Standard Content\Foundation\Events Overview\Most Common Events by Severity
- Standard Content\Foundation\Events Overview\Most Common Events by Severity\Reporting Devices
- Standard Content\Foundation\Network Monitoring\DoS Activity Overview
- Standard Content\Foundation\Network Monitoring\VPN Connections Overview
- Standard Content\Foundation\Network Monitoring\Domain Generation Algorithm Activity
- Standard Content\Foundation\Network Monitoring\Firewall Traffic Overview

## New Foundation Dashboards

Standard Content\Foundation\Events Overview\Events Overview

## Updated MITRE Dashboards

Standard Content\MITRE\MITRE ATT&CK Dashboards\MITRE ATT&CK Overview

# Installing and Updating Recon Default Content 25.4

The following section contains instructions for you to install the Foundation and MITRE packages.

- ["Prerequisites" on the next page](#)
- ["Installing the Foundation.zip" on page 8](#)
- ["Installing the MITRE.zip" on page 9](#)

# Prerequisites

- Requires Recon 1.4 (ArcSight Platform 24.2.x)
- The Foundation.zip is an independent package and does not rely on any other package.
- The MTIRE.zip is an independent package and does not rely on any other package.

# Installing the Foundation.zip

1. Select **Reports > Content**.
2. Click the **Import Asset** icon.
3. Select the .zip file for the **Foundation** pack from the stored location.
4. Click **Next**.
5. Follow the prompts to import and continue with the installation.  
To verify the installation is complete, locate the **Foundation** folder under the **Standard Content** folder
6. Verify that you see new Dashboards such as **Events Overview** under **Foundation/Events Overview**.

# Installing the MITRE.zip

1. Select **Reports > Content**.
2. Click the **Import Asset** icon.
3. Select the .zip file for the **MITRE** pack from the stored location.
4. Click **Next**.
5. Follow the prompts to import and continue with the installation.  
To verify the installation is complete, locate the **MITRE** folder under the **Standard Content** folder
6. Verify that you see **MITRE ATT&CK Overview Dashboard** under **MITRE\MITRE ATT&CK Dashboards**.
7. Right-click the **MITRE ATT&CK Overview** dashboard and select **Edit**. You should see a new widget titled **Tactics**.
