1. Release notes

OpenText Active Directory Administrator CE 25.2 includes new features and capabilities to enhance the user experience and functionality. Going forward, improvements will be made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs.

The documentation for this product is available on the OpenText website in HTML and PDF formats on a page that does not require you to log in. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [Active Directory Administrator Documentation](#) page. To download this product and patches, see the [OpenText Downloads](#) website.

Features list

The following sections outline the key features and functions provided by this version, as well as issues resolved in this release:

Service accounts discovery

Configuration of domains and the discovery of their service accounts enables the product administrators to get a list of all the service accounts in the domain. Apart from the administrator, a Chief Information Security Officer (CISO), who possesses the least privileged access can view the service accounts and their activities.

Service account monitoring

The product administrators and CISOs can monitor the activities of the service accounts and identify any suspicious activity occurring within them.

Dashboard for event visualization

The Overview dashboard offers a comprehensive view of all the service accounts, details , and insights related to the accounts in graphical form.

System requirements

For detailed information on hardware requirements and supported operating systems and browsers, see [Systems Requirements for ADA](#).

Installing Active Directory Administrator

You can install Active Directory Administrator on supported platforms. For more information about the installation procedure, see [Installing ADA](#).

Contact information

We want to hear your comments and suggestions about this book and the other documentation included with this product. You can use the **comment on this topic** link at the bottom of each page of the online documentation, or send an email to MFI-Documentation-Feedback@opentext.com.
