1. System requirements

Micro Focus recommends the fully tested and certified platforms described in this page. However, customers running on other platforms or with untested configurations will be supported until the point Micro Focus determines that the root cause is the uncertified platform or configuration. Issues that can be reproduced on the certified platforms will be prioritized and fixed according to standard defect handling policies. For more information about support policies, see Support Policies.

System Requirements

The following sections provide the Directory and Resource Administrator 10.3 requirements for hardware and software:

Software Requirements
