File Analysis Suite Release Notes

Software version: 3.8.1

Publication date: November 2022

This document is an overview of the changes made to File Analysis Suite.

Upgrade

Upgrade information is defined in the README.md file in the release package.

Enhancements

- Updated the file path for Exchange items to include the mailbox information.

- No longer adding the file extension to the file Subject/Title of Content Manager documents.

Bug Fixes

- Updated the process of tag value identification. This change improves the performance of document processing.

Known Issues

- In this release, do not use the "Force collection of all mail in mailboxes from the following group" option in the Primary Capture Rules when creating Exchange repositories. This option is deprecated in future releases.

- For Content Manager documents, the 'File Name' will not have an extension derived from 'RecordExtension'.
