

File Dynamics CEDM 25.2 Release Notes

1 - Platform and System Requirements

1.1 - .NET Core

All components using .NET target the .NET 9.0 Desktop runtime.

Each File Dynamics CEDM package installer will install any necessary .NET Core system runtime. For cases in which Internet access is not available, you must install the required .NET runtime as follows:

Package	.NET Core Edition
<ul style="list-style-type: none"> • Engine • File System Agent • Admin Client (Desktop) 	.NET 9.0 Desktop Runtime (latest release)

1.2 - Supported Platforms

Component	Server	Notes
<ul style="list-style-type: none"> • Engine 	Windows Server 2025 Windows Server 2022 Windows Server 2019	
<ul style="list-style-type: none"> • File System Agent 	Windows Server 2025 Windows Server 2022 Windows Server 2019 Windows Server 2016	Other servers, such as Windows Server 2012 R2 and supported NAS devices that host Windows shares, are supported via
