OpenText™ Core Application Security Plugin for IntelliJ IDEA Version 25.4 Release Notes

Document Release Date: December 2025

Software Release Date: December 2025

This document provides an overview of OpenText™ Core Application Security Plugin for IntelliJ IDEA 25.4, including new features, delivery information, and supported platforms. OpenText recommends that you read Release Notes in conjunction with the documentation included with the software package. We also recommend that you check Product Documentation for documentation updates that may have been posted after the initial release of this product.

New in this Release

The following are the new features in OpenText™ Core Application Security Plugin for IntelliJ IDEA version 25.4.

- You can use SAST Aviator auto-remediation to remediate vulnerabilities directly from OpenText™ Core Application Security Plugin for IntelliJ IDEA.
- You can view the SAST Aviator remediation related details in the Remediation tab on the Issue Summary view.

The OpenText™ Core Application Security Plugin for IntelliJ IDEA is available from the IntelliJ IDEA marketplace: <https://plugins.jetbrains.com/plugin/core-application-security>

KNOWN ISSUES

The following are known problems and limitations in OpenText™ Core Application Security Plugin for IntelliJ IDEA version 25.4.

- In **Diff Review** window, vulnerable code blocks may not automatically scroll into focus. Manual navigation is required.

Documentation

The documentation is available from the following OpenText Product Documentation website: <https://www.microfocus.com/documentation/fortify-on-demand>.
