Software Release Date: July 17, 2026

Products and/or Components updated with this patch

OpenText Static Application Security Testing

Fixes

Note: Always back up your system before installing a patch.

This patch addresses an issue where ScanCentral scans could generate FPR files without complete source code rendering information, resulting in missing source files in Software Security Center and limited source code navigation in Audit Workbench.

Documentation

There are no documentation updates required for this patch. Use the latest versions of the documentation created for 26.2.0.
