

Fortify Extensions for Visual Studio Code v23.1.0

Release Notes

Document Release Date: August 1, 2023

Software Release Date: August 1, 2023

OpenText™ Fortify Remediation Extension for Visual Studio Code

The new Fortify Remediation Extension for Visual Studio Code enables you to view and audit issues directly from an application version in Fortify Software Security Center. Take control of your security analysis with the flexibility to set custom tags, add comments, assign users, and suppress issues. Navigate directly to the line of code in the source file as you select detected issues.

Updates

This release of the Fortify Extension for Visual Studio Code includes the ability to install and use the Fortify Remediation Extension for Visual Studio Code.
