

Audit Event Table

Event ID	Class	Description
1		Audit Event ID: {0}
2		{0} invoked REST service
20		API Service Started
21		API Service Stopped
30		DTP Service Started
31		DTP Service Stopped
40		DaaS Service Started
41		DaaS Service Stopped
50		Workflow Service Started
51		Workflow Service Stopped
60		Healthcheck Service Started
61		Healthcheck Service Stopped
101	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved a list of access request approval policies
102	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved the access request approval policy with the given ID
103	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved the default access request approval policy
104	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} created an access request approval policy
105	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} updated an access request approval policy
106	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} deleted the access request approval policy with the given ID
107	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved a list of permissions assigned to an access request approval policy
108	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved a list of technical roles assigned to an access request approval policy
109	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved a list of applications assigned to an access request approval policy
110	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} set the approval items for an access request approval policy
111	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved the approval policies for the specified resources
112	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} assigned approval items to the default access request approval policy
113	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved the access request approval policy for the given access request item ID
114	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} retrieved the approval notification and reminder email template names
115	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} assigned the approval level for the access request approval policy for the specified items
116	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} performed a access request approval policy service multi-part import preview which will attempt to resolve objects and object references
117	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} resolved the applications in the access request approval policy multi-part import document
118	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} imported access request approval policies
119	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} imported access request approval assignments
120	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} started the access request approval policy multi-part import
121	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} started the access request approval policy download

Audit Event Table

Event ID	Class	Description
122	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} performed a access request approval policy service import preview for approval policy assignments
123	com.netiq.iac.server.rest.AccessRequestApprovalPolicyRestService	{0} resolved the applications in the access request approval policy import document
201	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved a list of access request policies
202	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved the access request policy with the given ID
203	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} created an access request policy
204	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} updated access request policy
205	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} deleted the access request policy with the given ID
206	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved a list of permissions assigned to an access request policy
207	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved a list of technical roles assigned to an access request policy
208	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved a list of applications assigned to an access request policy
209	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} set the request items for an access request policy
210	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved the request policies for the specified resources
211	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} cleared the access request policy for the specified items
212	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved the access request policy for the given access request item ID
213	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} retrieved the potential SoD violation approval policy
214	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} updated the Potential SoD Violation Approval Policy
215	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} performed a access request policy service multi-part import preview which will attempt to resolve objects and object references
216	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} resolved the applications in the access request policy multi-part import document
217	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} imported access request policies
218	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} imported access request policy assignments
219	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} imported access request policies from zip file
220	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} started the access request policy download
221	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} performed a access request policy service import preview which will attempt to resolve assignment references
222	com.netiq.iac.server.rest.AccessRequestPolicyRestService	{0} resolved the applications in the access request policy import document for assignment import
301	com.netiq.iac.server.rest.AccountsService	{0} retrieved the list of accounts associated with an application by application ID
302	com.netiq.iac.server.rest.AccountsService	{0} retrieved the details of the account with the specified account ID, associated with an application having the specified application ID
303	com.netiq.iac.server.rest.AccountsService	{0} updated the curated data for an application account
304	com.netiq.iac.server.rest.AccountsService	{0} retrieved the cause (trace) of permission assignment
305	com.netiq.iac.server.rest.AccountsService	{0} retrieved mapped users for the specified account
306	com.netiq.iac.server.rest.AccountsService	{0} retrieved mapped permissions for the specified account
307	com.netiq.iac.server.rest.AccountsService	{0} retrieved the detected SoD violations of the account with the specified id

Audit Event Table

Event ID	Class	Description
308	com.netiq.iac.server.rest.AccountsService	{0} retrieved the composite permissions for the specified account
401	com.netiq.iac.server.rest.AdvisorFeedService	{0} retrieved all advisor feeds
402	com.netiq.iac.server.rest.AdvisorFeedService	{0} retrieved specified advisor feed
403	com.netiq.iac.server.rest.AdvisorFeedService	{0} deleted the specified data collector
404	com.netiq.iac.server.rest.AdvisorFeedService	{0} updated advisor feed
405	com.netiq.iac.server.rest.AdvisorFeedService	{0} updated status of advisor feed
406	com.netiq.iac.server.rest.AdvisorFeedService	{0} started Advisor Feed generation process
407	com.netiq.iac.server.rest.AdvisorFeedService	{0} retrieved schedule of Advisor Feed generation processes
408	com.netiq.iac.server.rest.AdvisorFeedService	{0} added a new data advisor feed
409	com.netiq.iac.server.rest.AdvisorFeedService	{0} retrieved schedule of Advisor Feed generation processes
410	com.netiq.iac.server.rest.AdvisorFeedService	{0} retrieved a list of permission types
411	com.netiq.iac.server.rest.AdvisorFeedService	{0} perform bulk update upload
412	com.netiq.iac.server.rest.AdvisorFeedService	{0} check status of bulk update upload
500	com.netiq.iac.server.rest.ApplicationService	{0} started data source download for the specified id
501	com.netiq.iac.server.rest.ApplicationService	{0} retrieved all application sources
502	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application source with the specified ID
503	com.netiq.iac.server.rest.ApplicationService	{0} added a new application
504	com.netiq.iac.server.rest.ApplicationService	{0} deleted the specified identity source
505	com.netiq.iac.server.rest.ApplicationService	{0} updated application
506	com.netiq.iac.server.rest.ApplicationService	{0} started collections for collectors associated to the specified identity
507	com.netiq.iac.server.rest.ApplicationService	{0} retrieved the attribute joins that are required for an application
508	com.netiq.iac.server.rest.ApplicationService	{0} retrieved attribute joins for specified application
509	com.netiq.iac.server.rest.ApplicationService	{0} updated/Add/Remove attribute joins for specified application
510	com.netiq.iac.server.rest.ApplicationService	{0} started application resolution process
511	com.netiq.iac.server.rest.ApplicationService	{0} stopped the resolution by id
512	com.netiq.iac.server.rest.ApplicationService	{0} retrieved schedule of application resolution processes
513	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application resolutions
514	com.netiq.iac.server.rest.ApplicationService	{0} retrieved all application resolutions
515	com.netiq.iac.server.rest.ApplicationService	{0} exported an application source
516	com.netiq.iac.server.rest.ApplicationService	{0} started data source download for the specified id
517	com.netiq.iac.server.rest.ApplicationService	{0} retrieved the download file
518	com.netiq.iac.server.rest.ApplicationService	{0} checked the status of a download
519	com.netiq.iac.server.rest.ApplicationService	{0} canceled a download
520	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application resolution detail for the specified ID
521	com.netiq.iac.server.rest.ApplicationService	{0} retrieved the attribute joins that are required for the specified application
522	com.netiq.iac.server.rest.ApplicationService	{0} retrieved a list of applications that meet the criteria for becoming a target system of a multi-application collector
523	com.netiq.iac.server.rest.ApplicationService	{0} resolved owner references
524	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application change event processing information

Audit Event Table

Event ID	Class	Description
525	com.netiq.iac.server.rest.ApplicationService	{0} retrieved process change event steps
526	com.netiq.iac.server.rest.ApplicationService	{0} retrieved step change events
527	com.netiq.iac.server.rest.ApplicationService	{0} started a collection for an application with change event processing enabled
528	com.netiq.iac.server.rest.ApplicationService	{0} started a publication for an application with change event processing enabled
529	com.netiq.iac.server.rest.ApplicationService	{0} started a change event processing production for an application with change event processing enabled
530	com.netiq.iac.server.rest.ApplicationService	{0} retrieved process change event productions
531	com.netiq.iac.server.rest.ApplicationService	{0} canceled change event collection
532	com.netiq.iac.server.rest.ApplicationService	{0} canceled change event publication
533	com.netiq.iac.server.rest.ApplicationService	{0} canceled change event production
534	com.netiq.iac.server.rest.ApplicationService	{0} retrieved process change event production errors
535	com.netiq.iac.server.rest.ApplicationService	{0} deleted change event productions
536	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application latest collection information
537	com.netiq.iac.server.rest.ApplicationService	{0} retrieved application latest publication information
538	com.netiq.iac.server.rest.ApplicationService	{0} retrieved all application sources for schedule
600	com.netiq.iac.server.rest.ApprovalPolicyService	{0} started the approval policy download
601	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved a list of approval policies, including the information about each approval policy
602	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the GLOBAL approval policy
603	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the approval policy with the given ID
604	com.netiq.iac.server.rest.ApprovalPolicyService	{0} deleted the approval policy with the given ID
605	com.netiq.iac.server.rest.ApprovalPolicyService	{0} created an approval policy
606	com.netiq.iac.server.rest.ApprovalPolicyService	{0} updated global default approval policy
607	com.netiq.iac.server.rest.ApprovalPolicyService	{0} updated approval policy
608	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the business roles for a given approval policy
609	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the business roles that will require an approval state changes given the requested changes
610	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the business roles that will require an approval state changes given the requested changes
611	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the business roles for Global Approval Policy
612	com.netiq.iac.server.rest.ApprovalPolicyService	{0} started the approval policy download
613	com.netiq.iac.server.rest.ApprovalPolicyService	{0} retrieved the download file
614	com.netiq.iac.server.rest.ApprovalPolicyService	{0} checked the status of a download
615	com.netiq.iac.server.rest.ApprovalPolicyService	{0} canceled a download
616	com.netiq.iac.server.rest.ApprovalPolicyService	{0} performed an approval policy import preview which will attempt to resolve objects and object references
617	com.netiq.iac.server.rest.ApprovalPolicyService	{0} imported approval policies
701	com.netiq.iac.server.rest.AuthService	{0} retrieved all global roles

Audit Event Table

Event ID	Class	Description
702	com.netiq.iac.server.rest.AuthService	{0} retrieved global role assignment for users for specific role
703	com.netiq.iac.server.rest.AuthService	{0} retrieved global role assignment for groups for specific role
704	com.netiq.iac.server.rest.AuthService	{0} assigned a user to a role
705	com.netiq.iac.server.rest.AuthService	{0} assigned a group to a role
706	com.netiq.iac.server.rest.AuthService	{0} deleted a user from a role
707	com.netiq.iac.server.rest.AuthService	{0} deleted a group from a role
708	com.netiq.iac.server.rest.AuthService	{0} checked an authorization permission for the authenticated user
709	com.netiq.iac.server.rest.AuthService	{0} checked if the authenticated user has full read access to the specified entity type
801	com.netiq.iac.server.rest.AutoCurationService	{0} retrieved auto-curation details for specified id
802	com.netiq.iac.server.rest.AutoCurationService	{0} stopped AutoCuration from running- User's request for termination of autocuration
803	com.netiq.iac.server.rest.AutoCurationService	{0} uploaded and curated users
804	com.netiq.iac.server.rest.AutoCurationService	{0} uploaded accounts curation
805	com.netiq.iac.server.rest.AutoCurationService	{0} uploaded permissions curation
806	com.netiq.iac.server.rest.AutoCurationService	{0} retrieved data collection details for specified id
901	com.netiq.iac.server.rest.BURoleAnalyticsService	{0} retrieved a list of considered attributes and their significance
902	com.netiq.iac.server.rest.BURoleAnalyticsService	{0} retrieved a list of sorted values for the given root
903	com.netiq.iac.server.rest.BURoleAnalyticsService	{0} retrieved a list of sorted values for the given root
1000	com.netiq.iac.server.rest.BURoleService	{0} started downloading the Business Roles
1001	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of business roles, also include the information about business role
1002	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of business roles pending approval of the logged in user
1003	com.netiq.iac.server.rest.BURoleService	{0} retrieved the business role with the given ID
1004	com.netiq.iac.server.rest.BURoleService	{0} deleted the business role with the given ID
1005	com.netiq.iac.server.rest.BURoleService	{0} performed a bulk delete of business roles with the given IDs
1006	com.netiq.iac.server.rest.BURoleService	{0} created a business role
1007	com.netiq.iac.server.rest.BURoleService	{0} updated business role
1008	com.netiq.iac.server.rest.BURoleService	{0} changed a business role's approval state
1009	com.netiq.iac.server.rest.BURoleService	{0} published the given business roles
1010	com.netiq.iac.server.rest.BURoleService	{0} set the the business role managers
1011	com.netiq.iac.server.rest.BURoleService	{0} retrieved the business role managers
1012	com.netiq.iac.server.rest.BURoleService	{0} set the the business role owners
1013	com.netiq.iac.server.rest.BURoleService	{0} retrieved the business role owners
1014	com.netiq.iac.server.rest.BURoleService	{0} set the the business role fulfiller
1015	com.netiq.iac.server.rest.BURoleService	{0} retrieved the business role fulfiller
1016	com.netiq.iac.server.rest.BURoleService	{0} set the the business role approval policy
1017	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of users that match the membership criteria for the specified business role
1018	com.netiq.iac.server.rest.BURoleService	{0} retrieved the user count for a business role

Audit Event Table

Event ID	Class	Description
1019	com.netiq.iac.server.rest.BURoleService	{0} retrieved the detection status for a business role
1020	com.netiq.iac.server.rest.BURoleService	{0} retrieved the last detection time for a business role
1021	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of users that match the membership criteria for a business role
1022	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of permissions for users that match the membership criteria for a business role
1023	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of technical roles for users that match the membership criteria for a business role
1024	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of applications for users that match the membership criteria for a business role
1025	com.netiq.iac.server.rest.BURoleService	{0} retrieved information about roles that authorize a resource (permission, technical role, or account)
1026	com.netiq.iac.server.rest.BURoleService	{0} started downloading the Business Roles
1027	com.netiq.iac.server.rest.BURoleService	{0} retrieved the download file
1028	com.netiq.iac.server.rest.BURoleService	{0} checked the status of a download
1029	com.netiq.iac.server.rest.BURoleService	{0} canceled a download
1030	com.netiq.iac.server.rest.BURoleService	{0} performed a business role import preview which will attempt to resolve objects and object references
1031	com.netiq.iac.server.rest.BURoleService	{0} resolved the applications in the import document
1032	com.netiq.iac.server.rest.BURoleService	{0} performed a business role import
1033	com.netiq.iac.server.rest.BURoleService	{0} previewed what would change if the specified business role were to be published
1034	com.netiq.iac.server.rest.BURoleService	{0} previewed what would change if the specified business role were to be deactivated
1035	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of business roles filtered by id list,if provided
1036	com.netiq.iac.server.rest.BURoleService	{0} performed a query of the user catalog, mining values of the specified attributes
1037	com.netiq.iac.server.rest.BURoleService	{0} created the mined business roles
1038	com.netiq.iac.server.rest.BURoleService	{0} checked the status of a mining request
1039	com.netiq.iac.server.rest.BURoleService	{0} started analysis of the given Business Roles
1040	com.netiq.iac.server.rest.BURoleService	{0} checked the status of a analysis
1041	com.netiq.iac.server.rest.BURoleService	{0} retrieved the results of a analysis
1042	com.netiq.iac.server.rest.BURoleService	{0} retrieved the users associated with the given analysis and authorization type
1043	com.netiq.iac.server.rest.BURoleService	{0} canceled an analysis
1044	com.netiq.iac.server.rest.BURoleService	{0} deleted the analysis results
1045	com.netiq.iac.server.rest.BURoleService	{0} retrieved the list of business roles that reference the business role specified by the given id
1046	com.netiq.iac.server.rest.BURoleService	{0} retrieved the list of business roles that reference the business role specified by the given id

Audit Event Table

Event ID	Class	Description
1047	com.netiq.iac.server.rest.BURoleService	{0} started downloading the analysis results as a CSV
1048	com.netiq.iac.server.rest.BURoleService	{0} retrieved the effectiveness metrics for the business role permission authorizations
1049	com.netiq.iac.server.rest.BURoleService	{0} retrieved the effectiveness metrics for technical roles authorized by business roles
1050	com.netiq.iac.server.rest.BURoleService	{0} retrieved the effectiveness metrics for the business role application authorizations
1051	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of published business roles that auto-grant or auto-revoke one or more resources
1053	com.netiq.iac.server.rest.BURoleService	{0} requested resources that are inconsistent with either auto-grant or auto-revoke policy of business role authorizations
1054	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of business role detections
1055	com.netiq.iac.server.rest.BURoleService	{0} deleted business role detections
1056	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of business roles for a business role detection
1057	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of authorizations for a business role detect item
1058	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of members for a business role detect item
1059	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of auto-requests for a business role detection
1060	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of contained permissions for the given permission
1061	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of contained permissions for the given technical role
1062	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of inconsistency detections
1063	com.netiq.iac.server.rest.BURoleService	{0} started a new inconsistency detection
1064	com.netiq.iac.server.rest.BURoleService	{0} canceled an inconsistency detection
1065	com.netiq.iac.server.rest.BURoleService	{0} retrieved a list of user+resources whose assignments are inconsistent with either auto-grant or auto-revoke policy of business role authorizations
1066	com.netiq.iac.server.rest.BURoleService	{0} retrieved an inconsistent resource
1067	com.netiq.iac.server.rest.BURoleService	{0} return list of SOD policies referencing the business role
1068	com.netiq.iac.server.rest.BURoleService	{0} performed a multi-part import preview which will attempt to resolve objects and object references
1069	com.netiq.iac.server.rest.BURoleService	{0} resolved the applications in the multi-part import document
1070	com.netiq.iac.server.rest.BURoleService	{0} imported business roles from zip file
1071	com.netiq.iac.server.rest.BURoleService	{0} started downloading the analysis results as a CSV
1072	com.netiq.iac.server.rest.BURoleService	{0} started analysis of Business Role candidate
1073	com.netiq.iac.server.rest.BURoleService	{0} retrieved business role mining suggestions
1100	com.netiq.iac.server.rest.CertificationPolicyService	{0} started the certification policy download
1101	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved a list of certification policies
1102	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification policy by specified ID or unique ID
1103	com.netiq.iac.server.rest.CertificationPolicyService	{0} updated certification policy
1104	com.netiq.iac.server.rest.CertificationPolicyService	{0} created a new certification policy
1105	com.netiq.iac.server.rest.CertificationPolicyService	{0} deleted certification policy

Audit Event Table

Event ID	Class	Description
1106	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification policy status
1107	com.netiq.iac.server.rest.CertificationPolicyService	{0} calculated a certification policy
1108	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification policy calculation status
1109	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification policy violations by certification policy unique id
1110	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification policy violations by certification policy unique id
1111	com.netiq.iac.server.rest.CertificationPolicyService	{0} canceled a calculation task
1112	com.netiq.iac.server.rest.CertificationPolicyService	{0} started the certification policy download
1113	com.netiq.iac.server.rest.CertificationPolicyService	{0} performed an import preview which will attempt to resolve objects of the imported object, returning a import preview document to the client
1114	com.netiq.iac.server.rest.CertificationPolicyService	{0} resolved review definitions in the import document
1115	com.netiq.iac.server.rest.CertificationPolicyService	{0} imported of certification policies
1116	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved estimated violations from never reviewed items
1117	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved the file of downloaded certification policies
1118	com.netiq.iac.server.rest.CertificationPolicyService	{0} checked the status of a certification policies download
1119	com.netiq.iac.server.rest.CertificationPolicyService	{0} canceled a download of certification policies
1120	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification item counts for the specified entity
1121	com.netiq.iac.server.rest.CertificationPolicyService	{0} retrieved certification status for the specified entity
1201	com.netiq.iac.server.rest.CollectionService	{0} retrieved collections
1202	com.netiq.iac.server.rest.CollectionService	{0} retrieved data collection for specified id
1203	com.netiq.iac.server.rest.CollectionService	{0} retrieved data collection details for specified id

1205	com.netiq.iac.server.rest.CollectionService	{0} retrieved data source collections
1206	com.netiq.iac.server.rest.CollectionService	{0} retrieved data source collection for specified id
1300	com.netiq.iac.server.rest.CollectorService	{0} retrieved specified data collector
1301	com.netiq.iac.server.rest.CollectorService	{0} retrieved all collectors
1302	com.netiq.iac.server.rest.CollectorService	{0} retrieved change history list of specified data collector
1303	com.netiq.iac.server.rest.CollectorService	{0} deleted the specified data collector
1304	com.netiq.iac.server.rest.CollectorService	{0} updated data collector
1305	com.netiq.iac.server.rest.CollectorService	{0} updated data collector view with test collection settings
1306	com.netiq.iac.server.rest.CollectorService	{0} updated data collector
1307	com.netiq.iac.server.rest.CollectorService	{0} created a schedule for collector
1308	com.netiq.iac.server.rest.CollectorService	{0} added a new data collector
1309	com.netiq.iac.server.rest.CollectorService	{0} retrieved the event ingestion status for the argument collector
1310	com.netiq.iac.server.rest.CollectorService	{0} retrieved summary of most recent RTC event ingestions
1401	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved application data curation configuration
1402	com.netiq.iac.server.rest.ConfigurationService	{0} updated application data curation configuration
1403	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved application collection configuration
1404	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved notification configuration settings
1405	com.netiq.iac.server.rest.ConfigurationService	{0} updated application collection configuration collection class and collection batch size

Audit Event Table

Event ID	Class	Description
1406	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved application reporting configuration
1407	com.netiq.iac.server.rest.ConfigurationService	{0} updated a reporting configuration property
1408	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved external provisioning RBPM server details
1409	com.netiq.iac.server.rest.ConfigurationService	{0} updated external provisioning configuration RBPM server details
1410	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved verification configuration
1411	com.netiq.iac.server.rest.ConfigurationService	{0} updated verification configuration
1412	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved the application authentication server configuration
1413	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved the workflows. Format of the content is XML in the Identity Manager Designer format
1415	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved account classifications
1416	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved an account classification
1417	com.netiq.iac.server.rest.ConfigurationService	{0} updated an Account Category
1418	com.netiq.iac.server.rest.ConfigurationService	{0} created a new account category
1419	com.netiq.iac.server.rest.ConfigurationService	{0} deleted an account category
1420	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved UI configuration. This returns UI configuration properties with prefix com.netiq.iac.ui
1421	com.netiq.iac.server.rest.ConfigurationService	{0} updated UI configuration properties
1422	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved Import/Export configuration. This returns uniqueness attribute configuration properties for users, groups and permissions
1423	com.netiq.iac.server.rest.ConfigurationService	{0} updated UI configuration properties
1424	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved decision support configuration
1425	com.netiq.iac.server.rest.ConfigurationService	{0} updated Decision Support Configuration
1426	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved Similarity Profile configuration
1427	com.netiq.iac.server.rest.ConfigurationService	{0} updated Similarity Profile
1428	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved Role Mining configuration
1429	com.netiq.iac.server.rest.ConfigurationService	{0} updated Role Mining analytics Configuration
1430	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved all review item action reasons for particular action type
1431	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved all review item action reasons for particular action type
1432	com.netiq.iac.server.rest.ConfigurationService	{0} added a review item action reason
1433	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved a specific review item action reason by id
1434	com.netiq.iac.server.rest.ConfigurationService	{0} deleted a specified review item action reason
1435	com.netiq.iac.server.rest.ConfigurationService	{0} updated a specified review item action reason
1436	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved review display global configuration settings
1437	com.netiq.iac.server.rest.ConfigurationService	{0} modified the review display configuration setting
1438	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved review display global configuration settings for specified review (by unique id)
1439	com.netiq.iac.server.rest.ConfigurationService	{0} deleted configuration settings for specified review (by unique id)
1440	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved Fulfillment Context configuration
1441	com.netiq.iac.server.rest.ConfigurationService	{0} updated Fulfillment Context configuration
1442	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved a list of compensating grant requests

Audit Event Table

Event ID	Class	Description
1443	com.netiq.iac.server.rest.ConfigurationService	{0} updated compensating grant requests
1444	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved catalog history property
1446	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved a Separation of Duties (SoD) configuration
1447	com.netiq.iac.server.rest.ConfigurationService	{0} updated a Separation of Duties (SoD) configuration
1448	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved data that checked which optional features are available
1449	com.netiq.iac.server.rest.ConfigurationService	{0} updated data that sets which optional features are available
1450	com.netiq.iac.server.rest.ConfigurationService	{0} retrieving general global config values
1451	com.netiq.iac.server.rest.ConfigurationService	{0} updated general global config values
1453	com.netiq.iac.server.rest.ConfigurationService	{0} removed general configuration setting from grey list
1454	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved status of configuration setting
1455	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved audit level configuration settings
1456	com.netiq.iac.server.rest.ConfigurationService	{0} updated audit level configuration setting
1457	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved logging level configuration setting
1458	com.netiq.iac.server.rest.ConfigurationService	{0} changed logging level configuration setting
1460	com.netiq.iac.server.rest.ConfigurationService	{0} removed logging level configuration setting
1461	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved general logging configuration setting
1462	com.netiq.iac.server.rest.ConfigurationService	{0} changed general logging configuration setting
1463	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved for builder URL
1464	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved audit level configuration settings for specified WAR context
1465	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved logging level configuration settings for specified WAR context
1466	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved SSL configuration properties
1467	com.netiq.iac.server.rest.ConfigurationService	{0} retrieved hosted mode configuration properties
1468	com.netiq.iac.server.rest.ConfigurationService	{0} retrieving audit enable configuration settings for specified WAR context
1469	com.netiq.iac.server.rest.ConfigurationService	{0} updated audit enable configuration setting
1470	com.netiq.iac.server.rest.ConfigurationService	{0} retrieving audit event id configuration settings for specified package
1471	com.netiq.iac.server.rest.ConfigurationService	{0} retrieving audit event id configuration settings
1501	com.netiq.iac.server.rest.CoverageMapService	{0} retrieved the list of coverage maps (old pre-3.0 routine)
1502	com.netiq.iac.server.rest.CoverageMapService	{0} retrieved the list of coverage maps
1503	com.netiq.iac.server.rest.CoverageMapService	{0} retrieved the coverage map with the given ID
1504	com.netiq.iac.server.rest.CoverageMapService	{0} saved a new coverage map definition
1505	com.netiq.iac.server.rest.CoverageMapService	{0} saved a new coverage map definition, using MULTIPART_FORM_DATA media
1506	com.netiq.iac.server.rest.CoverageMapService	{0} saved an updated coverage map definition using multipart form data containing a reference to a CSV file
1507	com.netiq.iac.server.rest.CoverageMapService	{0} saved an updated coverage map definition
1508	com.netiq.iac.server.rest.CoverageMapService	{0} deleted a coverage map
1509	com.netiq.iac.server.rest.CoverageMapService	{0} performed an import preview which will attempt to resolve objects of the imported object, returning a import preview document to the client
1510	com.netiq.iac.server.rest.CoverageMapService	{0} resolved review definitions in the import document
1511	com.netiq.iac.server.rest.CoverageMapService	{0} imported of certification policies

Audit Event Table

Event ID	Class	Description
1512	com.netiq.iac.server.rest.CoverageMapService	{0} started the coverage map download
1513	com.netiq.iac.server.rest.CoverageMapService	{0} started the coverage map download
1514	com.netiq.iac.server.rest.CoverageMapService	{0} retrieved the download file
1515	com.netiq.iac.server.rest.CoverageMapService	{0} canceled a download
1600	com.netiq.iac.server.rest.DelegationService	{0} retrieved delegate mappings
1601	com.netiq.iac.server.rest.DelegationService	{0} resolved the delegate for the specified user
1602	com.netiq.iac.server.rest.DelegationService	{0} retrieved delegate mappings by delegator
1603	com.netiq.iac.server.rest.DelegationService	{0} retrieved specified delegate mapping
1604	com.netiq.iac.server.rest.DelegationService	{0} retrieved count of total delegate mappings and active mappings
1605	com.netiq.iac.server.rest.DelegationService	{0} created a new delegate mapping
1606	com.netiq.iac.server.rest.DelegationService	{0} updated existing delegate mapping
1607	com.netiq.iac.server.rest.DelegationService	{0} deleted a specified delegate mapping
1608	com.netiq.iac.server.rest.DelegationService	{0} updated active status of one or more delegate mappings
1701	com.netiq.iac.server.rest.EmailTemplateService	{0} retrieved a list of email templates in JSON format
1702	com.netiq.iac.server.rest.EmailTemplateService	{0} retrieved the email templates in XML format
1703	com.netiq.iac.server.rest.EmailTemplateService	{0} retrieved the email templates, with the matching template identifier, in XML format
1704	com.netiq.iac.server.rest.EmailTemplateService	{0} added a set of email templates
1705	com.netiq.iac.server.rest.EmailTemplateService	{0} deleted an email template
1706	com.netiq.iac.server.rest.EmailTemplateService	{0} sent a preview email
1800	com.netiq.iac.server.rest.FactService	{0} started downloading the collected metrics
1801	com.netiq.iac.server.rest.FactService	{0} started downloading the collected metrics
1802	com.netiq.iac.server.rest.FactService	{0} retrieved the download file
1803	com.netiq.iac.server.rest.FactService	{0} checked the status of a download
1804	com.netiq.iac.server.rest.FactService	{0} canceled a download
1805	com.netiq.iac.server.rest.FactService	{0} generated a custom metric from a data query
1901	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the fulfillment items
1902	com.netiq.iac.server.rest.FulfillmentService	{0} updated the fulfillment item status
1903	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved fulfillment item information
1904	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the fulfillment items
1905	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the catalog fulfillment items
1906	com.netiq.iac.server.rest.FulfillmentService	{0} updated the catalog fulfillment item status
1907	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the fulfillment items count in retry state
1908	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the fulfillment items in retry state
1909	com.netiq.iac.server.rest.FulfillmentService	{0} fulfilled or refused bulk change request items
1910	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved fulfillment item attribute information, valid for MODIFY_USER_SUPERVISOR and MODIFY_USER_PROFILE
1911	com.netiq.iac.server.rest.FulfillmentService	{0} retrieved the fulfillment items in ignorable state
1912	com.netiq.iac.server.rest.FulfillmentService	{0} ignored bulk change request items
1913	com.netiq.iac.server.rest.FulfillmentService	{0} requested sample download

Audit Event Table

Event ID	Class	Description
2001	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved all identity sources
2002	com.netiq.iac.server.rest.IdentitySourceService	{0} deleted the specified identity source
2003	com.netiq.iac.server.rest.IdentitySourceService	{0} updated identity source
2004	com.netiq.iac.server.rest.IdentitySourceService	{0} started collections for collectors associated to the specified identity
2005	com.netiq.iac.server.rest.IdentitySourceService	{0} added a new identity source
2006	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved the unification configuration
2007	com.netiq.iac.server.rest.IdentitySourceService	{0} updated unification configuration
2008	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved information on unifications
2009	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved the unification by id
2010	com.netiq.iac.server.rest.IdentitySourceService	{0} started a data source download for the specified id
2011	com.netiq.iac.server.rest.IdentitySourceService	{0} stopped the specified unification
2012	com.netiq.iac.server.rest.IdentitySourceService	{0} exported an identity source
2013	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved data sources for the specified entity
2014	com.netiq.iac.server.rest.IdentitySourceService	{0} started a data source download for the specified id
2015	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved a download file
2016	com.netiq.iac.server.rest.IdentitySourceService	{0} checked the status of a download
2017	com.netiq.iac.server.rest.IdentitySourceService	{0} canceled a download
2019	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved log detail for the specified unification
2020	com.netiq.iac.server.rest.IdentitySourceService	{0} retrieved specified identity source
2021	com.netiq.iac.server.rest.IdentitySourceService	{0} started an identity unification
2101	com.netiq.iac.server.rest.LocalizationService	{0} retrieved the locales supported by the server
2102	com.netiq.iac.server.rest.LocalizationService	{0} downloaded all the localized labels for a specified locale
2103	com.netiq.iac.server.rest.LocalizationService	{0} updated localized labels in a certain locale
2201	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the configuration targets
2202	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved a configuration target
2203	com.netiq.iac.server.rest.ProvisioningRestService	{0} created a configuration target
2204	com.netiq.iac.server.rest.ProvisioningRestService	{0} updated a configuration target
2205	com.netiq.iac.server.rest.ProvisioningRestService	{0} deleted a configuration target
2206	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved a configuration template which has been localized
2207	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the changeset associated with the changeset id
2208	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the open tasks for this user for this changeset
2209	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the open tasks for this user for all changesets
2210	com.netiq.iac.server.rest.ProvisioningRestService	{0} updated the change request item status
2211	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the change item associated with the id
2212	com.netiq.iac.server.rest.ProvisioningRestService	{0} updated the change set status
2213	com.netiq.iac.server.rest.ProvisioningRestService	{0} updated the change item status based on the fulfiller action
2214	com.netiq.iac.server.rest.ProvisioningRestService	{0} updated the change item status based on the fulfiller action
2215	com.netiq.iac.server.rest.ProvisioningRestService	{0} retrieved the change item action as per id
2216	com.netiq.iac.server.rest.ProvisioningRestService	{0} started an external provisioning workflow

Audit Event Table

Event ID	Class	Description
2217	com.netiq.iac.server.rest.ProvisioningRestService	{0} transformed the auto-provisioning change items to manually provisioned items
2218	com.netiq.iac.server.rest.ProvisioningRestService	{0} retried provisioning for a changeset, application or change request item
2219	com.netiq.iac.server.rest.ProvisioningRestService	{0} terminated a provisioning changeset, set it to error state
2220	com.netiq.iac.server.rest.ProvisioningRestService	{0} terminated a provisioning changeitem, set it to error state
2221	com.netiq.iac.server.rest.ProvisioningRestService	{0} started auto provisioning for an application
2222	com.netiq.iac.server.rest.ProvisioningRestService	{0} started auto provisioning for a list of changeltems
2223	com.netiq.iac.server.rest.ProvisioningRestService	{0} started auto-provisioning for all the items in the changeset
2224	com.netiq.iac.server.rest.ProvisioningRestService	{0} started the provisioning change item verification
2225	com.netiq.iac.server.rest.ProvisioningRestService	{0} bulk updated the change item status based on the fulfiller action
2226	com.netiq.iac.server.rest.ProvisioningRestService	{0} bulk terminated change items based on the fulfiller action
2227	com.netiq.iac.server.rest.ProvisioningRestService	{0} bulk retried fulfillment for change items based on the fulfiller action
2228	com.netiq.iac.server.rest.ProvisioningRestService	{0} requested fulfillment target download
2301	com.netiq.iac.server.rest.RequestService	{0} retrieved the business roles a user belongs to
2302	com.netiq.iac.server.rest.RequestService	{0} retrieved the business roles having authorized request-able items for the specified user
2303	com.netiq.iac.server.rest.RequestService	{0} retrieved items in the specified business role that are authorized for the specified user
2304	com.netiq.iac.server.rest.RequestService	{0} retrieved requests initiated by the authenticated user
2305	com.netiq.iac.server.rest.RequestService	{0} retrieved permission analytics for the specified user
2306	com.netiq.iac.server.rest.RequestService	{0} retrieved role analytics for the specified user
2307	com.netiq.iac.server.rest.RequestService	{0} retrieved application analytics for the specified user
2308	com.netiq.iac.server.rest.RequestService	{0} retrieved permissions for the specified user
2309	com.netiq.iac.server.rest.RequestService	{0} retrieved roles for the specified user
2310	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of SoD violations for the user that the specified permission contributes to
2311	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of SoD violations for the user that the specified technical role contributes to
2312	com.netiq.iac.server.rest.RequestService	{0} retrieved the SoD policy information, including information about whether the specified user has permissions and technical roles in the policy conditions
2313	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of values for the specified permission
2314	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of values for a particular dynamic permission parameter
2315	com.netiq.iac.server.rest.RequestService	{0} retrieved the assigned parameters for the specified user and dynamic permission
2316	com.netiq.iac.server.rest.RequestService	{0} retrieved permission metadata for the specified user
2317	com.netiq.iac.server.rest.RequestService	{0} retrieved technical role metadata for the specified user
2318	com.netiq.iac.server.rest.RequestService	{0} retrieved application metadata for the specified user
2319	com.netiq.iac.server.rest.RequestService	{0} retrieved a list of managed users

Audit Event Table

Event ID	Class	Description
2320	com.netiq.iac.server.rest.RequestService	{0} retrieved a list of requestable applications
2321	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of requestable permissions for an application
2322	com.netiq.iac.server.rest.RequestService	{0} retrieved the list of requestable technical roles
2323	com.netiq.iac.server.rest.RequestService	{0} approved or rejected approval item tasks
2324	com.netiq.iac.server.rest.RequestService	{0} retrieved his/her approval item tasks
2325	com.netiq.iac.server.rest.RequestService	{0} retrieved his/her potential SoD violation approval item tasks
2326	com.netiq.iac.server.rest.RequestService	{0} retrieved a potential SoD violation approval item task
2327	com.netiq.iac.server.rest.RequestService	{0} saved a potential SoD violation request item decision
2328	com.netiq.iac.server.rest.RequestService	{0} finalized a potential SoD violation approval task
2329	com.netiq.iac.server.rest.RequestService	{0} generated a change set
2330	com.netiq.iac.server.rest.RequestService	{0} requested permission
2331	com.netiq.iac.server.rest.RequestService	{0} retracted a resource request item
2332	com.netiq.iac.server.rest.RequestService	{0} restarted a resource request approval workflow
2333	com.netiq.iac.server.rest.RequestService	{0} reassigned an approver
2334	com.netiq.iac.server.rest.RequestService	{0} retrieved approvals that are in-progress
2335	com.netiq.iac.server.rest.RequestService	{0} saved a change request item decision status
2336	com.netiq.iac.server.rest.RequestService	{0} retrieved change request item decision status
2337	com.netiq.iac.server.rest.RequestService	{0} saved request shopping cart content
2338	com.netiq.iac.server.rest.RequestService	{0} retrieved request shopping cart content
2339	com.netiq.iac.server.rest.RequestService	{0} deleted request shopping cart
2340	com.netiq.iac.server.rest.RequestService	{0} retrieved list of SoDs that would be violated if the specified user were granted the specified permission
2341	com.netiq.iac.server.rest.RequestService	{0} retrieved list of SoDs that would be violated if the specified user were granted the specified technical role
2342	com.netiq.iac.server.rest.RequestService	{0} retrieved request item details
2343	com.netiq.iac.server.rest.RequestService	{0} retrieved list of SoD violations for the user that the specified business role contributes to
2344	com.netiq.iac.server.rest.RequestService	{0} retrieved a list of requestable items
2345	com.netiq.iac.server.rest.RequestService	{0} retrieved approvers for an approval task
2366	com.netiq.iac.server.rest.RequestService	{0} retrieved metadata for multiple permissions for the specified user
2367	com.netiq.iac.server.rest.RequestService	{0} retrieved metadata for multiple technical roles for the specified user
2368	com.netiq.iac.server.rest.RequestService	{0} retrieved list of SoDs that would be violated for specified user+item+item type objects
2369	com.netiq.iac.server.rest.RequestService	{0} submitted approval or denial of a standalone workflow task
2370	com.netiq.iac.server.rest.RequestService	{0} asked for standalone workflow tasks
2371	com.netiq.iac.server.rest.RequestService	{0} asked for approval form for a particular standalone workflow tasks
2372	com.netiq.iac.server.rest.RequestService	{0} terminated a debug workflow
2373	com.netiq.iac.server.rest.RequestService	{0} submitted a decision for a debug workflow
2374	com.netiq.iac.server.rest.RequestService	{0} started a debug workflow
2375	com.netiq.iac.server.rest.RequestService	{0} queried the status of a debug workflow

Audit Event Table

Event ID	Class	Description
2376	com.netiq.iac.server.rest.RequestService	{0} queried the availability of a workflow name

2378	com.netiq.iac.server.rest.RequestService	{0} queried the comments of a workflow
2401	com.netiq.iac.server.rest.ReviewDefinitionService	{0} created a review definition
2402	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved all review definitions
2403	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved a review definition for a particular review instance
2404	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved specified review definition
2405	com.netiq.iac.server.rest.ReviewDefinitionService	{0} updated review definition
2406	com.netiq.iac.server.rest.ReviewDefinitionService	{0} deleted the specified review definition
2407	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved custom display attributes for reviewer item
2408	com.netiq.iac.server.rest.ReviewDefinitionService	{0} saved custom attributes to be displayed on a review item
2409	com.netiq.iac.server.rest.ReviewDefinitionService	{0} started review based on a unique ID
2410	com.netiq.iac.server.rest.ReviewDefinitionService	{0} started a review
2411	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved review instances for specified review definition
2412	com.netiq.iac.server.rest.ReviewDefinitionService	{0} started the review definition download
2413	com.netiq.iac.server.rest.ReviewDefinitionService	{0} started the review definition download
2414	com.netiq.iac.server.rest.ReviewDefinitionService	{0} retrieved the download file
2415	com.netiq.iac.server.rest.ReviewDefinitionService	{0} checked the status of a download
2416	com.netiq.iac.server.rest.ReviewDefinitionService	{0} canceled a download
2417	com.netiq.iac.server.rest.ReviewDefinitionService	{0} performed an import preview which will attempt to resolve objects and object references
2418	com.netiq.iac.server.rest.ReviewDefinitionService	{0} resolved the applications in the import document
2419	com.netiq.iac.server.rest.ReviewDefinitionService	{0} imported review definitions
2420	com.netiq.iac.server.rest.ReviewDefinitionService	{0} previewed an import, which will attempt to resolve objects and object references
2421	com.netiq.iac.server.rest.ReviewDefinitionService	{0} resolved applications in the import document
2500	com.netiq.iac.server.rest.ReviewInstanceService	{0} started review item download
2501	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved specified review instance
2502	com.netiq.iac.server.rest.ReviewInstanceService	{0} updated expected end-date or review owner on running review instance
2503	com.netiq.iac.server.rest.ReviewInstanceService	{0} reassigned review items for the specified review instance
2504	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved workflow tasks for review instance
2505	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved review items for specified review instance
2506	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved the review instance history for a review by unique review id
2507	com.netiq.iac.server.rest.ReviewInstanceService	{0} overrode items
2508	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved activity for a review instance items
2509	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved fulfillment item(s) for specified review item
2510	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved list of shared account users
2511	com.netiq.iac.server.rest.ReviewInstanceService	{0} updated review instance status
2512	com.netiq.iac.server.rest.ReviewInstanceService	{0} updated status of materialized view used for review instance

Audit Event Table

Event ID	Class	Description
2513	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved the notifications that will be generated for a given review instance
2514	com.netiq.iac.server.rest.ReviewInstanceService	{0} sent a preview email for the specified addressee, notification instance and review instance combination
2515	com.netiq.iac.server.rest.ReviewInstanceService	{0} started review item download
2516	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved the review item download file
2517	com.netiq.iac.server.rest.ReviewInstanceService	{0} checked the status of the review item download
2518	com.netiq.iac.server.rest.ReviewInstanceService	{0} canceled the download of a review item CSV file while in progress
2519	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved attribute values for the specified review item
2520	com.netiq.iac.server.rest.ReviewInstanceService	{0} retrieved review status
2601	com.netiq.iac.server.rest.ReviewItemInfoService	{0} retrieved potential causes for a user permission assignment
2602	com.netiq.iac.server.rest.ReviewItemInfoService	{0} retrieved child roles and resources (with values) associated with RBPM Role
2701	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved active or historical reviews the logged in user has access to
2702	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved the active review count the user has access to
2703	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved the unique reviewer groups for a particular review instance
2704	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved the line items for a reviewer group
2705	com.netiq.iac.server.rest.ReviewMonitorService	{0} started reviewer monitor download
2801	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved review items for reviewer and review instance
2802	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved grouping of tasks for either user, application or item type
2803	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved status information for specific reviewer tasks
2804	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved reviewer instance members by reviewer instance ID
2805	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved reviewer instance members by reviewer instance ID and reviewer set member instance ID
2806	com.netiq.iac.server.rest.ReviewReviewerService	{0} submitted a bulk list of review item modifications
2807	com.netiq.iac.server.rest.ReviewReviewerService	{0} started reviewer item download
2901	com.netiq.iac.server.rest.ReviewTargetSpecService	{0} previewed the target specification
2902	com.netiq.iac.server.rest.ReviewTargetSpecService	{0} started download of target criteria CSV
2903	com.netiq.iac.server.rest.ReviewTargetSpecService	{0} retrieved the download file
2904	com.netiq.iac.server.rest.ReviewTargetSpecService	{0} checked the status of a download
2905	com.netiq.iac.server.rest.ReviewTargetSpecService	{0} canceled the download of a CSV file
3001	com.netiq.iac.server.rest.RoleService	{0} retrieved a list of logical role policies, also include the information about policy
3002	com.netiq.iac.server.rest.RoleService	{0} retrieved the role policy with the given ID
3003	com.netiq.iac.server.rest.RoleService	{0} retrieved the calculated attribute (attrName) for the given role policy ID
3004	com.netiq.iac.server.rest.RoleService	{0} deleted the technical roles with the given IDs
3005	com.netiq.iac.server.rest.RoleService	{0} deleted the role policy with the given ID
3006	com.netiq.iac.server.rest.RoleService	{0} created a role policy
3007	com.netiq.iac.server.rest.RoleService	{0} updated logical role policy

Audit Event Table

Event ID	Class	Description
3008	com.netiq.iac.server.rest.RoleService	{0} retrieved an estimate of users containing all the permissions of the role policy
3009	com.netiq.iac.server.rest.RoleService	{0} retrieved a list of users that are in a particular role
3010	com.netiq.iac.server.rest.RoleService	{0} sorted the permissions contained in the given role policy
3011	com.netiq.iac.server.rest.RoleService	{0} retrieved existing role policies having the same permissions as the given role policy
3012	com.netiq.iac.server.rest.RoleService	{0} retrieved a list of users that are in a particular role
3013	com.netiq.iac.server.rest.RoleService	{0} retrieved the SoD policies that reference the specified role
3014	com.netiq.iac.server.rest.RoleService	{0} started the technical role download
3015	com.netiq.iac.server.rest.RoleService	{0} retrieved the download file
3016	com.netiq.iac.server.rest.RoleService	{0} checked the status of a download
3017	com.netiq.iac.server.rest.RoleService	{0} canceled a download
3018	com.netiq.iac.server.rest.RoleService	{0} performed a role service import preview which will attempt to resolve objects and object references
3019	com.netiq.iac.server.rest.RoleService	{0} resolved the applications in the import document
3020	com.netiq.iac.server.rest.RoleService	{0} imported role services
3021	com.netiq.iac.server.rest.RoleService	{0} created roles from a mining operation
3022	com.netiq.iac.server.rest.RoleService	{0} checked the status of a mining request
3023	com.netiq.iac.server.rest.RoleService	{0} retrieved a list of logical role policies, also include the information about
3024	com.netiq.iac.server.rest.RoleService	{0} set the role state of the specified IDs
3025	com.netiq.iac.server.rest.RoleService	{0} set the role owner of the specified IDs
3026	com.netiq.iac.server.rest.RoleService	{0} promote users detected in role to assigned roles
3027	com.netiq.iac.server.rest.RoleService	{0} performed a role policy service multi-part import file preview which will attempt to resolve objects and object references
3028	com.netiq.iac.server.rest.RoleService	{0} resolved the applications in the role policy multi-part import document
3029	com.netiq.iac.server.rest.RoleService	{0} imported role policies from zip file
3030	com.netiq.iac.server.rest.RoleService	{0} retrieved the SoD policies that reference the specified role
3031	com.netiq.iac.server.rest.RoleService	{0} retrieved list of permissions assigned to an technical role policy
3032	com.netiq.iac.server.rest.RoleService	{0} started the technical role download
3033	com.netiq.iac.server.rest.RoleService	{0} retrieved the Business Roles that reference the specified role
3034	com.netiq.iac.server.rest.RoleService	{0} assigned the users specified in the CSV file to the given technical roles
3101	com.netiq.iac.server.rest.SchemaService	{0} retrieved attributes for the specified class (entityType)
3102	com.netiq.iac.server.rest.SchemaService	{0} updated attribute definition of a class (entityType)
3103	com.netiq.iac.server.rest.SchemaService	{0} retrieved a specific attribute definition, including (for an extended attribute) whether it is in use
3104	com.netiq.iac.server.rest.SchemaService	{0} retrieved a specific attribute definition by entityType (class) and attribute key
3105	com.netiq.iac.server.rest.SchemaService	{0} created a new extended attribute definition
3106	com.netiq.iac.server.rest.SchemaService	{0} updated a specific attribute definition

Audit Event Table

Event ID	Class	Description
3107	com.netiq.iac.server.rest.SchemaService	{0} deleted a specific attribute definition
3108	com.netiq.iac.server.rest.SchemaService	{0} retrieved the distinct values of the passed attribute id
3109	com.netiq.iac.server.rest.SchemaService	{0} started an attribute download for the specified class (entityType)
3110	com.netiq.iac.server.rest.SchemaService	{0} retrieved the download file
3111	com.netiq.iac.server.rest.SchemaService	{0} checked the status of a download
3112	com.netiq.iac.server.rest.SchemaService	{0} canceled a download
3113	com.netiq.iac.server.rest.SchemaService	{0} imported schema services
3114	com.netiq.iac.server.rest.SchemaService	{0} performed an import
3115	com.netiq.iac.server.rest.SchemaService	{0} started an attribute download for the specified class (entityType)
3201	com.netiq.iac.server.rest.SoDService	{0} retrieved a list of SoD policies, including the information about policy
3202	com.netiq.iac.server.rest.SoDService	{0} retrieved the SoD policy with the specified ID
3203	com.netiq.iac.server.rest.SoDService	{0} retrieved the calculated attribute (attrName) for the given SoD policy ID
3204	com.netiq.iac.server.rest.SoDService	{0} deleted the SoD policy with the specified ID
3205	com.netiq.iac.server.rest.SoDService	{0} created a SoD policy
3206	com.netiq.iac.server.rest.SoDService	{0} updated SoD policy
3207	com.netiq.iac.server.rest.SoDService	{0} retrieved an estimate of users matching the conditions of the SoD policy
3208	com.netiq.iac.server.rest.SoDService	{0} retrieved a list of users that are in violation of a particular SoD policy
3209	com.netiq.iac.server.rest.SoDService	{0} retrieved a list of accounts that are in violation of a particular SoD policy
3210	com.netiq.iac.server.rest.SoDService	{0} retrieved the SOD case information associated with a SOD policy and a particular user, if any
3211	com.netiq.iac.server.rest.SoDService	{0} retrieved the SOD case information associated with a SOD policy and a particular account, if any
3212	com.netiq.iac.server.rest.SoDService	{0} added a SoD case action to a SOD case
3213	com.netiq.iac.server.rest.SoDService	{0} retrieved the SOD case information
3214	com.netiq.iac.server.rest.SoDService	{0} retrieved a list of SoD cases, also include the information about the case
3215	com.netiq.iac.server.rest.SoDService	{0} started the SoD download
3216	com.netiq.iac.server.rest.SoDService	{0} started a SoD download
3217	com.netiq.iac.server.rest.SoDService	{0} retrieved the download file
3218	com.netiq.iac.server.rest.SoDService	{0} checked the status of a download
3219	com.netiq.iac.server.rest.SoDService	{0} canceled a download
3220	com.netiq.iac.server.rest.SoDService	{0} performed an import preview which will attempt to resolve objects and object references
3221	com.netiq.iac.server.rest.SoDService	{0} resolved the applications in the import document
3222	com.netiq.iac.server.rest.SoDService	{0} performed an import
3223	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of SoD policies that would be violated if a user had the permissions and technical roles specified in sodCriteria

Audit Event Table

Event ID	Class	Description
3224	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of potential new SoD violations that would occur if the users specified in sodCriteria
3225	com.netiq.iac.server.rest.SoDService	{0} retrieved the SoD violation counts
3226	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of current SoD violations for the users specified in SoD Criteria
3227	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of SoD violations for the user that the specified permission contributes to
3228	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of SoD violations for the user that the specified technical role contributes to
3229	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of potential SoD violations that would occur for the user if the user were to obtain the specified permission
3230	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of potential SoD violations that would occur for the user if the user were to obtain the specified technical role
3231	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of potential SoD violations that would occur for the user if the user were to obtain the specified business role
3232	com.netiq.iac.server.rest.SoDService	{0} performed a bulk state owners of sod policy service
3233	com.netiq.iac.server.rest.SoDService	{0} performed a bulk set owners of sod policy service
3234	com.netiq.iac.server.rest.SoDService	{0} performed a sod policy service multi-part import preview from file which will attempt to resolve objects and object references
3235	com.netiq.iac.server.rest.SoDService	{0} resolved the applications in the sod policy multi-part import file
3236	com.netiq.iac.server.rest.SoDService	{0} imported SoD policies from zip file
3237	com.netiq.iac.server.rest.SoDService	{0} retrieved the list of potential SoD violations for the user that the specified business role contributes to
3238	com.netiq.iac.server.rest.SoDService	{0} retrieved the count of permissions, business roles or technical roles associated with a Sod Condition
3300	com.netiq.iac.server.rest.RiskScoreService	{0} started downloading risk scores
3301	com.netiq.iac.server.rest.RiskScoreService	{0} started downloading risk score policies
3302	com.netiq.iac.server.rest.RiskScoreService	{0} performed an import preview which will attempt to resolve objects and object references of the import document, returning a import preview document to the client
3303	com.netiq.iac.server.rest.RiskScoreService	{0} resolved the applications in the import document
3304	com.netiq.iac.server.rest.RiskScoreService	{0} imported risk policies
3400	com.netiq.iac.server.rest.EntityCategoryRestService	{0} started the category download
3401	com.netiq.iac.server.rest.EntityCategoryRestService	{0} started the category download
3402	com.netiq.iac.server.rest.EntityCategoryRestService	{0} retrieved the download file
3403	com.netiq.iac.server.rest.EntityCategoryRestService	{0} checked the status of a download
3404	com.netiq.iac.server.rest.EntityCategoryRestService	{0} canceled a download
3405	com.netiq.iac.server.rest.EntityCategoryRestService	{0} performed an import preview which will attempt to resolve objects and object references of the imported file, returning a import preview document to the client

Audit Event Table

Event ID	Class	Description
3406	com.netiq.iac.server.rest.EntityCategoryRestService	{0} resolved the applications in the import document
3407	com.netiq.iac.server.rest.EntityCategoryRestService	{0} performed an import
3408	com.netiq.iac.server.rest.EntityCategoryRestService	{0} assigned the given categories to the selected entities
3409	com.netiq.iac.server.rest.EntityCategoryRestService	{0} removed the assigned categories from the selected entities
3410	com.netiq.iac.server.rest.EntityCategoryRestService	{0} retrieved all assigned categories for the given class and IDs
3411	com.netiq.iac.server.rest.EntityCategoryRestService	{0} retrieved a list of all applications or, if application ids provided, only return applications with specified ids
3412	com.netiq.iac.server.rest.EntityCategoryRestService	{0} performed an multi-part import preview which will attempt to resolve objects and object references of the imported file, returning a import preview document to the client
3413	com.netiq.iac.server.rest.EntityCategoryRestService	{0} resolved the applications in the multi-part import document
3501	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved a list of archival activities
3503	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved details for the specified archive
3504	com.netiq.iac.server.rest.ArchiveRestService	{0} cancelled the running archive (if any)
3505	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved the list of tables for an archival process
3506	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved the list of tables for the next archival process
3507	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved information for the next archival process
3508	com.netiq.iac.server.rest.ArchiveRestService	{0} deleted archives
3509	com.netiq.iac.server.rest.ArchiveRestService	{0} disabled archiving
3510	com.netiq.iac.server.rest.ArchiveRestService	{0} enabled archiving
3511	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved the archiving status (enabled/disabled)
3512	com.netiq.iac.server.rest.ArchiveRestService	{0} started retrieval of information about the next archival process
3513	com.netiq.iac.server.rest.ArchiveRestService	{0} deleted information about the next archival process
3514	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved a list of archive destinations
3515	com.netiq.iac.server.rest.ArchiveRestService	{0} created a new archive destination
3516	com.netiq.iac.server.rest.ArchiveRestService	{0} modified an archive destination
3517	com.netiq.iac.server.rest.ArchiveRestService	{0} deleted the archive destination with the given ID
3518	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved the archive destination with the given ID
3519	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved a list of archive readers
3520	com.netiq.iac.server.rest.ArchiveRestService	{0} deleted archive readers
3521	com.netiq.iac.server.rest.ArchiveRestService	{0} retrieved a list of OPS transactions
3522	com.netiq.iac.server.rest.ArchiveRestService	{0} deleted OPS transactions
3523	com.netiq.iac.server.rest.ArchiveRestService	{0} tested archive destination connection
3524	com.netiq.iac.server.rest.ArchiveRestService	{0} tested archive destination connection
3600	com.netiq.iac.server.rest.MaintenanceRestService	{0} started maintenance
3601	com.netiq.iac.server.rest.MaintenanceRestService	{0} cancelled maintenance
3602	com.netiq.iac.server.rest.MaintenanceRestService	{0} retrieved maintenance status
3603	com.netiq.iac.server.rest.MaintenanceRestService	{0} resumed maintenance
3700	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved a list of cleanups
3702	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved cleanup information

Audit Event Table

Event ID	Class	Description
3703	com.netiq.iac.server.rest.CleanupRestService	{0} cancelled a cleanup
3704	com.netiq.iac.server.rest.CleanupRestService	{0} deleted cleanups
3705	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved a list of entities to cleanup
3706	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved a list of cleanup entity instances for a specified cleanup entity
3707	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved a list of cleanup entity tables for a specified cleanup entity instance
3708	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved the number of items that can be cleaned up for each entity type
3709	com.netiq.iac.server.rest.CleanupRestService	{0} retrieved a list of the next cleanup entity instances for the specified cleanup entity type
3710	com.netiq.iac.server.rest.CleanupRestService	{0} started retrieval of counts of items that can be cleaned up for each entity type
3711	com.netiq.iac.server.rest.CleanupRestService	{0} deleted information about counts of items that can be cleaned up for each entity type
3800	com.netiq.iac.server.rest.DataQueryRestService	{0} started an Insight Query download
3801	com.netiq.iac.server.rest.DataQueryRestService	{0} retrieved the download file for the specified id
3802	com.netiq.iac.server.rest.DataQueryRestService	{0} retrieved the status of the download for the specified id
3803	com.netiq.iac.server.rest.DataQueryRestService	{0} canceled the download for the specified id
3804	com.netiq.iac.server.rest.DataQueryRestService	{0} executed an Insight Query
3805	com.netiq.iac.server.rest.DataQueryRestService	{0} generated an import preview for the given import data
3806	com.netiq.iac.server.rest.DataQueryRestService	{0} imported an Insight Query
3807	com.netiq.iac.server.rest.ReviewReviewerService	{0} started post reviewer item download
3808	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved the reviewer item download file
3809	com.netiq.iac.server.rest.ReviewReviewerService	{0} checked the status of the reviewer item download
3810	com.netiq.iac.server.rest.ReviewReviewerService	{0} canceled the download of a reviewer queue CSV file while in progress
3811	com.netiq.iac.server.rest.ReviewMonitorService	{0} started reviewer monitor queue download
3812	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved the reviewer monitor queue download file
3813	com.netiq.iac.server.rest.ReviewMonitorService	{0} checked the status of the reviewer monitor queue download
3814	com.netiq.iac.server.rest.ReviewMonitorService	{0} canceled the download of a review monitor queue CSV file while in progress
3815	com.netiq.iac.server.rest.ReviewInstanceService	{0} recalculated progress counts on an active review
3830	com.netiq.iac.server.rest.DataQueryRestService	{0} started an Insight Query results download
3831	com.netiq.iac.server.rest.DataQueryRestService	{0} execute SQL Select Query
3900	com.netiq.iac.server.rest.DownloadRestService	{0} downloaded a file
3901	com.netiq.iac.server.rest.DownloadRestService	{0} retrieved the download file count
3902	com.netiq.iac.server.rest.DownloadRestService	{0} checked the status of a download
3903	com.netiq.iac.server.rest.DownloadRestService	{0} cancelled a download
3904	com.netiq.iac.server.rest.DownloadRestService	{0} retrieved the list of initiated downloads
3905	com.netiq.iac.server.rest.DownloadRestService	{0} began a CSV download

Audit Event Table

Event ID	Class	Description
3906	com.netiq.iac.server.rest.ReviewItemInfoService	{0} retrieved technical role permissions with indicator whether permission is assigned to user
4000	com.netiq.iac.server.rest.MaintScheduleRestService	{0} retrieved maintenance schedules
4001	com.netiq.iac.server.rest.MaintScheduleRestService	{0} retrieved a maintenance schedule

4003	com.netiq.iac.server.rest.MaintScheduleRestService	{0} updated a maintenance schedule
4004	com.netiq.iac.server.rest.MaintScheduleRestService	{0} deleted a maintenance schedule
4005	com.netiq.iac.server.rest.MaintScheduleRestService	{0} bulk updated maintenance schedules
4006	com.netiq.iac.server.rest.MaintScheduleRestService	{0} bulk deleted maintenance schedules
4007	com.netiq.iac.server.rest.ReviewReviewerService	{0} retrieved review item counts for reviewer and review instance
4008	com.netiq.iac.server.rest.ReviewMonitorService	{0} retrieved the nearest reviewer item due date for the logged-in user
4100	com.netiq.iac.server.rest.MetricsStoreRestService	{0} retrieved a list of metrics data stores
4101	com.netiq.iac.server.rest.MetricsStoreRestService	{0} created metrics data store
4102	com.netiq.iac.server.rest.MetricsStoreRestService	{0} modified a metrics data store
4103	com.netiq.iac.server.rest.MetricsStoreRestService	{0} deleted the metrics data store with the given ID
4104	com.netiq.iac.server.rest.MetricsStoreRestService	{0} retrieved the metrics data store with the given ID
4105	com.netiq.iac.server.rest.MetricsStoreRestService	{0} tested metrics data store connection
4106	com.netiq.iac.server.rest.MetricsStoreRestService	{0} tested existing metrics data store connection
4200	com.netiq.iac.server.rest.DataSourceConnectionService	{0} added a new data source connection
4201	com.netiq.iac.server.rest.DataSourceConnectionService	{0} retrieved all data source connections
4202	com.netiq.iac.server.rest.DataSourceConnectionService	{0} retrieved the specified data source connection
4203	com.netiq.iac.server.rest.DataSourceConnectionService	{0} deleted the specified data source connection
4204	com.netiq.iac.server.rest.DataSourceConnectionService	{0} updated data source connection
4300	com.netiq.iac.server.rest.AgentService	{0} added a new data center
4301	com.netiq.iac.server.rest.AgentService	{0} retrieved all data centers
4302	com.netiq.iac.server.rest.AgentService	{0} retrieved the specified data center
4303	com.netiq.iac.server.rest.AgentService	{0} deleted the specified data center
4304	com.netiq.iac.server.rest.AgentService	{0} updated data center
4305	com.netiq.iac.server.rest.AgentService	{0} started data center download
4306	com.netiq.iac.server.rest.AgentService	{0} retrieved the data center download file
4307	com.netiq.iac.server.rest.AgentService	{0} checked the status of the data center download
4308	com.netiq.iac.server.rest.AgentService	{0} canceled the download of a data center file while in progress
4444	com.netiq.iac.server.rest.FormsService	{0} retrieved the image for the specified form
4445	com.netiq.iac.server.rest.FormsService	{0} retrieved a form for the specified application/formType
4446	com.netiq.iac.server.rest.FormsService	{0} retrieved the form context for the specified application
4447	com.netiq.iac.server.rest.FormsService	{0} retrieved a form
4448	com.netiq.iac.server.rest.FormsService	{0} searched for forms associated with the specified FormEntityType/FormType
4449	com.netiq.iac.server.rest.FormsService	{0} retrieved the default form associated with the specified form entity type/form type

Audit Event Table

Event ID	Class	Description
4450	com.netiq.iac.server.rest.FormsService	{0} retrieved the form associated with the specified permission
4451	com.netiq.iac.server.rest.FormsService	{0} retrieved the context for the specified permission
4452	com.netiq.iac.server.rest.FormsService	{0} retrieved the context for the specified user when requesting/approving a resource
4453	com.netiq.iac.server.rest.FormsService	{0} searched for a form set
4454	com.netiq.iac.server.rest.FormsService	{0} searched for form set for the specified permission/application
4455	com.netiq.iac.server.rest.FormsService	{0} saved a form set
4456	com.netiq.iac.server.rest.FormsService	{0} added a form set to a permission/application
4457	com.netiq.iac.server.rest.FormsService	{0} saved a form
4458	com.netiq.iac.server.rest.FormsService	{0} renamed a form
4459	com.netiq.iac.server.rest.FormsService	{0} reverted a form to the last published value
4460	com.netiq.iac.server.rest.FormsService	{0} updated or published a form
4461	com.netiq.iac.server.rest.FormsService	{0} deleted a form
4462	com.netiq.iac.server.rest.FormsService	{0} cloned a form set
4463	com.netiq.iac.server.rest.FormsService	{0} renamed a form set
4464	com.netiq.iac.server.rest.FormsService	{0} checked if the specified form set name is available
4465	com.netiq.iac.server.rest.FormsService	{0} checked if the specified form name is available
4466	com.netiq.iac.server.rest.FormsService	{0} start custom form download
4467	com.netiq.iac.server.rest.FormsService	{0} get the custom form download file
4468	com.netiq.iac.server.rest.FormsService	{0} check status of custom form download
4469	com.netiq.iac.server.rest.FormsService	{0} cancel custom form download
4470	com.netiq.iac.server.rest.FormsService	{0} start a custom form import preview
4471	com.netiq.iac.server.rest.FormsService	{0} start a custom form import
4500	com.netiq.iac.server.rest.ScriptService	{0} added a script association to an application
4501	com.netiq.iac.server.rest.ScriptService	{0} published a script
4502	com.netiq.iac.server.rest.ScriptService	{0} searched for a particular script
4503	com.netiq.iac.server.rest.ScriptService	{0} searched for a scripts
4504	com.netiq.iac.server.rest.ScriptService	{0} created a script
4505	com.netiq.iac.server.rest.ScriptService	{0} updated a script
4506	com.netiq.iac.server.rest.ScriptService	{0} debugged a script
4507	com.netiq.iac.server.rest.ScriptService	{0} deleted a script
4508	com.netiq.iac.server.rest.ScriptService	{0} changed the order of scripts
4509	com.netiq.iac.server.rest.ScriptService	{0} disassociated a script from an application
4510	com.netiq.iac.server.rest.ScriptService	{0} associated a script with an application
4511	com.netiq.iac.server.rest.ScriptService	{0} set script debug context for an application
4512	com.netiq.iac.server.rest.ScriptService	{0} checked to see if script name was available
4600		Changeset modification: Script with id of "{0}" has refused change request item "{1}", reason given was "{2}"
4601		Changeset modification: Script with id of "{0}" has sorted changeset "{1}", resulting in "{2}" row(s) updated.

Audit Event Table

Event ID	Class	Description
4602		Changeset modification: Script with id of "{0}" has added change request item "{1}", type "{2}" for user "{3}", reason given was "{4}"
4603		Changeset modification: Script with id of "{0}" has rolled back add change request item "{1}"
4604		Changeset modification: Script with id of "{0}" has rolled back sort of changeset "{1}"
4605		Changeset modification: Script with id of "{0}" has rolled back refusal of change request item "{1}"
4606		Changeset script entity read: Script with id of "{0}" has read "{1}" of entity type "{2}", id "{3}"
4607		Changeset modification: Script with id of "{0}" has added a remove type change request item "{1}", type "{2}" for user "{3}", reason given was "{4}"
4608		Changeset modification: Script with id of "{0}" has rolled back adding of remove type change request item "{1}"
4609		Changeset script entity read: Script with id of "{0}" has read "{1}" of entity type "{2}", id "{3}" for user "{4}"
4610		Catalog modification: Script with id of "{0}" has added Technical role "{1}" for user "{2}", reason given was "{3}"
4611		Catalog modification: Script with id of "{0}" has removed Technical role "{1}" for user "{2}", reason given was "{3}"
4612		Catalog modification: Script with id of "{0}" has rolled back removal of Technical role "{1}" for user "{2}", reason given was "{3}"
4613		Catalog modification: Script with id of "{0}" has rolled back removal of Technical role "{1}" for user "{2}", reason given was "{3}"
4614		Changeset modification: Script with id of "{0}" has added change request item "{1}", type "{2}" to remove permission "{3}" to account "{4}", reason given was "{5}"
4700	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} get the user to permission map summary.
4701	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} get the user to permission map thumbnail.
4702	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} get the user to permission map tile.
4703	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} start a technical role mining background operation.
4704	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} get the results technical role mining operation.
4705	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} analyze the results of a technical role operation for duplicate roles.
4706	com.netiq.iac.server.rest.TERoleAnalyticsService	{0} update the number of users for technical role mining results.
4800	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} approved or denied a workflow approval
4801	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got email of delegate.
4802	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got workflow association details.
4803	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got workflow association.
4804	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} executed a method to return permission metadata.
4805	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} executed a method to return user metadata.

Audit Event Table

Event ID	Class	Description
4806	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got entity attributes.
4807	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got logged in user details.
4808	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got context details.
4809	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got user or group email details.
4810	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got entity (user/group/permission/application/role) details.
4811	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got entity (user/group/permission/application/role) details.
4812	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} got group membership details.
4813	com.netiq.iac.server.rest.WorkflowInterfaceService	{0} get entity list.
