This product includes components that use UI Bootstrap (<http://angular-ui.github.io/bootstrap/>), by Angular-UI team (<https://github.com/angular-ui?tab=members>) and contributors (<https://github.com/angular-ui/bootstrap/graphs/contributors>).

This product includes components that use Twitter Bootstrap (<http://getbootstrap.com/>), by @mdo (<https://twitter.com/mdo>) and @fat (<https://twitter.com/fat>).

This product includes software developed by the Apache Software Foundation (<http://www.apache.org/>).

Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent software updates, go to <https://downloads.autonomy.com/productDownloads.jsp>.

To verify that you are using the most recent edition of a document, go to <https://softwaresupport.hpe.com/group/softwaresupport/search-result?doctype=online help>.

This site requires that you register for an HPE Passport and sign in. To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

Support

Visit the HPE Software Support Online web site at <https://softwaresupport.hpe.com>.

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Access product documentation
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HPE Passport user and sign in. Many also require a support contract.

To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

To find more information about access levels, go to <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

To check for recent software updates, go to <https://downloads.autonomy.com/productDownloads.jsp>.

Contents

New in this Release 5

Resolved Issues 6

Installation Requirements 7

New in this Release

Media Management and Analysis Platform has been enhanced with the following features:

- Some database queries have been optimized to improve the responsiveness of the application.

Resolved Issues

There were no resolved issues in Media Management and Analysis Platform version 11.5.0.

Installation Requirements

System Requirements

This section describes the system requirements for Media Management and Analysis Platform. The Media Management and Analysis Platform must be hosted by:

- A JBoss enterprise application server (JBoss EAP 6.2.0).
- A fully compliant Java 7 or later Runtime environment.

NOTE:

Check the Red Hat JBoss EAP documentation for information on supported versions of Java Runtime for JBoss EAP 6.2.0.

Dependencies

This section describes the dependencies for Media Management and Analysis Platform:

- HPE IDOL Media Server version 11.5.0. HPE MMAP 11.5.0 is not compatible with previous versions of HPE IDOL Media Server.
- HPE IDOL Speech Server 11.3.0 is required for speech-to-text functionality.

For more information and documentation on HPE IDOL Media Server, see the HPE Customer Support site at <https://softwaresupport.hpe.com>.

Minimum Server Requirements

The minimum server requirements depend on many variables, such as the frequency of requests that Media Management and Analysis Platform must serve. The following are minimum requirements but there may be additional requirements. HPE recommends that you refer to the documentation for JBoss EAP 6.2.0.

- 1.4 GHz dual-core processor
- 4 GB RAM
- 20 GB free disk space
