Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit <https://www.microfocus.com/support-and-services/documentation/>.

Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- View information about all services that Support offers
- Submit and track service requests
- Contact customer support
- Search for knowledge documents of interest
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in.

Contents

New in this Release	4
Resolved Issues	5
Supported Operating System Platforms	6
Documentation	7

New in this Release

The following new features were released in File System Connector version 12.13.0.

- The connector's synchronize action is now multithreaded. You can specify the number of threads to use by setting the configuration parameter `SynchronizeThreads` in the `[Connector]` section of the configuration file. The connector uses five threads by default.

Resolved Issues

The following issues were resolved in File System Connector version 12.13.0.

- The connector could terminate unexpectedly when performing a synchronize action, if identifiers were specified to synchronize specific documents.
- The connector was not able to send documents to an Apache NiFi input port when authentication was required.

Supported Operating System Platforms

File System Connector 12.13.0 is supported on the following platforms.

Windows (x86-64)

- Windows Server 2022
- Windows Server 2019
- Windows Server 2016
- Windows Server 2012

Linux (x86-64)

The minimum supported versions of particular distributions are:

- Red Hat Enterprise Linux (RHEL) 7
- CentOS 7
- SuSE Linux Enterprise Server (SLES) 12
- Ubuntu 14.04
- Debian 8

Documentation

The following documentation was updated for File System Connector version 12.13.0.
