

OpenText iPrint Appliance CE 25.1 Release Notes

January 2025

OpenText iPrint Appliance is a virtual appliance that offers cross-platform, self-service printing for the enterprise. It allows users to print from their desktops, laptops, and mobile devices. iPrint Appliance supports NetIQ eDirectory, Active Directory, and Microsoft Identity as user identity sources. It scales to fit organizations of any size and provides a single solution to manage the printing needs across multiple locations.

The appliance runs as a virtual machine within any virtualization environment such as VMware, Windows Hyper-V, Citrix Xen Server, or Xen on SUSE Linux Enterprise Server (SLES).

OpenText iPrint Appliance CE 25.1 is an update for iPrint Appliance 24.4 that includes enhancements, improves usability, and resolves several previous issues.
