## Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

- **Ubuntu**
  - Ubuntu 18.04 LTS

## Supported browsers

One of the following supported web browsers is required to run Structured Data Manager 7.65:

- Chrome
- Firefox
- Microsoft Edge

### **NOTE:**

- If the UNIX, Linux or Windows operating system is not supported for a component of Structured Data Manager, check with your SDM Product Marketing/Management representative.
- Structured Data Manager software is certified with the Operating systems and will not be explicitly certified with any virtualization software.

## Technology Stack

- Java: 1.8
- Groovy: 2.4.15
- Grails: 3.3.8
- Open JDK: 1.8

**NOTE:** CentOS, Ubuntu and Windows versions that are certified with java 1.8, groovy 2.4.7 and grails 3.2.6 versions are subject to self-certification by the user. But they are highly likely to be compatible with the versions explicitly certified by our labs.

## Databases

One of the following supported databases is required to run Structured Data Manager 7.65.

**NOTE:** Your archive can be different source and target database instances on different machines. However, the archive source and target databases should be the same technology and the target database's version (including patch level) should be the same or higher than the source.

## Data Movement (archive and reload)

- **Oracle**
  - Oracle 19c
  - Oracle 12.x
  - Oracle 11.x

# Compatibility

This section provides information about software and configurations that are not required, but which are compatible with Structured Data Manager 7.65.

## Free text search

Structured Data Manager 7.65 works with the following applications that provide free text search.

- IDOL 12.5
- Solr 8.4.1
- Elasticsearch 7.5.1

## Discovery

- Discovery 1.6.7

## Micro Focus software integrations

Structured Data Manager 7.65 integrates with the following Micro Focus products:

- **Content Manager**
  - Content Manager CM 10.0 Patch 1
  - Content Manager 9.4
  - Content Manager 9.3
  - Content Manager 9.2
  - Content Manager 9.1

- **Masking server**

Voltage SecureData Enterprise

**NOTE:** For this integration to work, ensure to install Voltage SecureData SimpleAPI version 6.0.0 on the SDM machine.

## Cloud platforms

Structured Data Manager 7.65 supports the following cloud platform:

- Amazon Simple Storage Service (Amazon S3)

## Enterprise applications and integration packs

Structured Data Manager 7.65 integrates with the following third-party enterprise applications and provides pre-built modules ('Integration Packs') for each one.

- Oracle E-Business Suite ([OEBS integration packs](#))
- PeopleSoft Enterprise ([PeopleSoft integration packs](#))

Integration Packs for these enterprise applications allow for rapid implementation in environments running the applications and address the most common high-growth areas in those applications. Each Integration Pack supports a specific version of the supported enterprise application, as detailed in the following tables.

**NOTE:** If the tables indicate support is not available for the version of enterprise software you are using, contact your SDM Product Marketing/Management representative—pre-built modules can be made available according to demand. Additionally, the Micro Focus Software Professional Services organization can deliver services-based solutions to address other areas with these enterprise applications, including custom tables.
