Trade Agreements Act Compliance Statement

ITOM

The Trade Agreements Act ("TAA") requires the U.S. Government to purchase end products produced/manufactured or substantially transformed within the United States or a TAA Designated Country.

The IT Operations Management ("ITOM") products listed below have been deemed TAA compliant by Micro Focus. This is not a fully inclusive list, as there are other Micro Focus products that are TAA compliant but not listed below. Please contact Micro Focus for additional information.
