Today, Micro Focus announced a critical step in executing on its long-term strategy, and underscored its dedication to delivering solutions in the four critical areas of digital transformation.

Since you have demonstrated an interest in one of those four areas – Enterprise DevOps – we have packaged up some related highlights that we believe you’ll find useful, and we commit to providing you similar updates on a regular basis.

Please be looking for future newsletters within this category, and naturally let us know if you ever have questions or wish to receive additional details.
