

# Get the Cloud Tools Your Business Needs to Thrive

When moving software to the cloud, you can't cut corners. Fortunately, Micro Focus can help your organization with the largest arsenal of cloud solutions in the industry. Our full suite of tools offers flexible pricing and sharp insights that guide your team through the process.

## Discover Comprehensive Cloud Solutions

Some of the world's leading brands have used Micro Focus cloud solutions. Why? Our platform's extensibility provides distinct value through out-of-the-box API integrations. This agnostic approach extends your on-premises software to the cloud using solutions from Micro Focus or third parties. Ultimately, our SaaS platform offers enterprise-level services that meet business-critical operations without extensive overhaul on your part.

## Enjoy Flexible and Cost-Effective Pricing

### SaaS Flex

Rather than locking you into fixed-term contracts for each product you use, SaaS Flex lets you scale usage up and down across the entire SaaS portfolio. You choose which SaaS products each team member needs and change products as your business needs vary over time.

### Low-Risk Adoption

As your business grows and you try new services, you might want to onboard your teams gradually. SaaS Flex lets you adopt new services as you need them. Need help adopting? SaaS Premier Support provides a personal customer success manager and 24x7 support from technical experts.

### Transparency

The SaaS Flex Credit adjusts at the start of each month. Seven days before then, the customer success manager and you determine which SaaS services to activate, deactivate, or continue using.

## Gain Trusted Insight

Any journey into the unknown benefits from a knowledgeable guide. Let Micro Focus be your guide to profitable cloud operations. Some of the brightest minds in the industry will help you objectively select the best tools for your business. After leveraging our knowledge and experience, your business will emerge more agile and can transform challenges into opportunities.

## Take the First Step Toward Success in the Cloud

Are you ready to transition from on-premises software and thrive in the cloud? Perhaps you are interested in hybrid options. Let us know your goals, and a specialist can tailor a plan based on your needs.
