

Virtual Executive Briefing Center

We focus on logistics, you focus on your business.

Our goal with the Virtual Executive Briefing Center (EBC) program is to maintain the same in-person experience that you would have in an onsite briefing with us. We stand ready at all times to help with any request that may be top of mind. That way, you can focus on what matters most—your business, and the business at hand.

Explore what's best for you

The Virtual EBC serves all of our valued customers and partners. We create personalized briefings and explore the technologies best suited to your unique needs—together. Choose from a variety of session types, including:

- IT strategy briefings
- Industry solutions briefings
- Facilitated business-strategy workshops
- Senior executive and peer-to-peer roundtables and discussions

Our sessions focus on delivering value-driven outcomes for you by establishing a shared understanding of your challenges and how Micro Focus can help. Through relationships you build with our industry and technology experts, you gain the strategic insight you need to run and transform your business with speed and innovation.

Designed for you

We custom design each Virtual EBC briefing experience so it specifically aligns to your goals and project requirements.

When you join a Virtual EBC meeting, you quickly see how Micro Focus makes it easy to meet face-to-face with Micro Focus subject matter experts, company leaders, and technology innovators. A Virtual EBC can accommodate large and small groups with the latest audio/visual technologies.

A dedicated briefing team

Successful events require input and commitment on multiple levels. Your dedicated briefing team knows how to deliver a high-quality, high-value experience—proven by the positive reviews we get from our guests. We ensure your briefing is meaningful and productive.

Micro Focus— Powering Digital Transformation

At Micro Focus we help you run and transform your business. Driven by customer-centric innovation, our software provides the critical tools you need to build, operate, secure, and analyze the enterprise. By design, these tools bridge the gap between existing and emerging technologies—which means you can innovate faster, with less risk, in the race to digital transformation.

Enterprise DevOps

Reliably scale DevOps across all your environments, from mainframe to cloud—quickly bringing innovative ideas to life at the pace your business demands.

Hybrid IT Management

Simplify hybrid IT complexity and transform into an agile, services-driven organization.

Security, Risk & Governance

Take a holistic, analytics-driven approach to securing what matters most—identities, applications, and data.

Predictive Analytics

Transform unlimited volumes of data into accurate, actionable, automated insights—at the speed of your business.

Micro Focus helps you innovate faster, with less risk, in the race to digital transformation.
