

GroupWise Mailbox Management

Whether you are managing the mailbox settings for 10,000 users or attempting to turn off the vacation rule in a single mailbox, GroupWise Mailbox Management puts all OpenText GroupWise mailboxes in your control. GroupWise Mailbox Management is the Enterprise Mailbox Management tool for GroupWise.

Product Highlights

GroupWise Mailbox Management enables an administrator to manage these mailboxes within the GroupWise Web Administration Console. GroupWise Mailbox Management introduces new capabilities for administrators to manage GroupWise accounts and to access corporate mailboxes.
