

Micro Focus Education Training Units

Simplify the budgeting and planning process

Key Benefits

Helps Simplify Your Budgeting Process

We know how hard the budgeting process can be, especially if there is no clearly defined plan. Training Units give you the flexibility to purchase software training when you have the budget available while giving you time to decide how and when to use the Training Units.

Provides Flexibility in Your Enablement Planning

Not sure exactly who in the team will require enablement in your new solution, or the level of training they will need? No problem—Training Units can be consumed at any point during their 12 month lifespan.

Because we know how busy life can be, we will work with you, to pro-actively ensure you get the most of the investment in your team.

Ease of Administration

After your initial order has been placed, you'll receive an order confirmation detailing your order and providing you with a Training Unit code. You can then provide the Training Unit code to your staff, so that they can book and purchase Micro Focus® Education learning solutions. The staff can purchase directly through the Micro Focus Education website or by contacting the local Micro Focus Education Training Logistics team. With your Training Unit code, you can review your account summary and balance in real time.

Training Units to Other Micro Focus Orders

Micro Focus Education Training Units can be acquired as a service standalone purchase, or in combination with any other Micro Focus order.

What Are Training Units?

Micro Focus Education Training Units are a flexible and simple way to purchase software training. It is a unit-based account of funds that you can use to purchase eligible Micro Focus Education learning solutions.

Eligible services include Digital Learning—the amazing interactive self-paced learning with simulated labs; and our Instructor-Led Training (ILT) delivered by our experienced and knowledgeable instructors with hands-on lab environments

Our Instructor Led Trainings are available to meet your needs as face-to-face, virtual (online classroom) in both public, or private formats.

Purchase Training Units

Purchasing Training Units from Micro Focus Education is easy to do. To place your order for Training Units, you can:

- Contact your local Micro Focus sales representative for assistance.
- Contact your local Micro Focus education representative for assistance.
- Contact the Micro Focus education training logistics team.

When placing your order, refer to the following product information:

Business Unit	SKU code	Description	Course Catalog
Enterprise Security	EDAA135	Security Operations Education	microfocus.com/ EducationServices
	EDAA136	Security Applications Education	
	EDAA189	Security Data Education

How Many Training Units Do You Need?

The number of units to purchase varies depending on your enablement needs. It is helpful to speak with your local Micro Focus Education representative, who can provide free planning assistance and make a recommendation as to how many Training Units your initial order should include. If you are planning a transformation project, consider engaging our team to perform a Training Needs Assessment to ensure you purchase the ideal number of Training Units.
