

Retain Mobile for Android

Micro Focus® Retain™ Mobile delivers secure, encrypted messaging and archiving for iOS, Android, and BlackBerry devices. This solution is for organizations that utilize personal employee and corporate devices to generate and consume business data while meeting regulatory and compliance requirements.

Product Highlights

Retain archives SMS/MMS, BBM Enterprise and phone call logs for Android and BBM, BBM Enterprise, PIN, SMS/MMS, and phone call logs for BlackBerry. Additionally, Retain archives all encrypted SMS/Text messages and dedicated business phone number data for iOS and Android, via the secure communications server, as well as BBM Enterprise. This means there is no need to tether or sync the device and archiving is done in real time. Retain is the only enterprise-ready archiving solution for iOS, Android, and BlackBerry devices.

With Retain Mobile, you don't lose valuable information and your organization stays compliant. Your sensitive data stays securely within your organization.

How Retain Mobile Works for Android

Retain Mobile operates through a lightweight app that is installed on each device. This app captures all SMS/ MMS and phone call log data. For encrypted communication, Retain Mobile pulls all encrypted SMS/Text messages and dedicated business phone number data from a secure server. The captured data is then automatically sent to and stored in your Retain archive in the cloud or on-premises.

Retain Mobile helps to assure that companies:

- Meet regulatory compliance standards: Dodd-Frank Act, Gramm-Leach- Bliley Act (GLB), SEC, FINRA, FRCP, Sarbanes-Oxley, HIPAA.
- Monitor smartphone usage to ensure compliance with corporate policies.
- Comply with the Dodd-Frank Act (which gives firms 72 hours to comply when trade reconstruction requests are issued)
 - **Fast mobile communication retrieval:** Retain provides fast and easy retrieval, ensuring compliance with trade reconstruction request timelines.
 - **Secure, accessible archive:** The secure archive can be searched by legal counsel, auditors, or other named users. Retain Mobile securely archives SMS/MMS, BBM Enterprise, phone call logs, and encrypted communication for Android and iOS devices, as well as archiving BBM, BBM Enterprise, PIN, SMS/MMS, and phone call logs for BlackBerry devices. Retain is the only enterprise-ready mobile communication archiving and eDiscovery suite on the market that supports BlackBerry, Android, and iOS.

Archive Mobile Device Communication

Retain Mobile is the only enterprise-level archiving solution for iOS, Android, and BlackBerry. Retain allows you to archive all mobile communication, without the need to tether or sync the device. Retain provides a fully compliant and complete archive for mobile communication.

“We are doing everything we can to stay compliant with text messages and phone calls. The only way to say it and mean it, is to have a system like Retain Mobile.”

Retain Unified Archive

Retain provides unified archiving of all business communication, including email, social media, and mobile communication data for case assessment, search, and eDiscovery. It can be deployed on-premises or in the cloud. This includes email archiving for Microsoft Exchange, Office 365, Gmail, and Micro Focus GroupWise® platforms. Retain Mobile archives mobile device communication data for Android, BlackBerry,

and iOS, including SMS/text messages, BBM Messages, BBM Enterprise, phone call logs, and PIN Messages. Retain Social provides monitoring and data insight into message context and tone of all posts for Facebook, Twitter, YouTube, LinkedIn, Instagram, Vimeo, Flickr, Pinterest, and Google+ (on and off network).

Choose Retain and experience a better approach to archiving.
