

Vertica Health Check Service

Gain onsite technical assistance with Vertica Health Check Service.

Overview

The Vertica Health Check Service is designed to provide you with a detailed assessment of your Vertica Enterprise Edition solution infrastructure deployment. The Vertica Health Check Service offers an onsite, multi-point system review of the operating environment, and provides recommendations meant to help you get the most value from the Vertica Enterprise Edition platform.

Service Implementation

The Vertica Health Check Service (the “Service”) provides for the detailed analysis and review of one (1) Vertica Enterprise Edition instance in a supportable configuration. The Service evaluates actual system configuration and operating metrics. The Service is most effective when executed upon a production environment that has been in operation for a minimum of one (1) month.

Service Planning and Deployment

A Micro Focus® Professional Services specialist (the “Specialist”) will schedule the delivery of the Service at a time mutually agreed upon between Micro Focus and you, which will be during local Micro Focus standard business hours, excluding Micro Focus holidays, unless otherwise agreed by Micro Focus.

Any services provided outside of Micro Focus standard business hours will be subject to additional charges.

The Specialist will perform the following activities:

Kickoff Phone Call

- Verify that system environment prerequisites have been met.
- Collect onsite visit logistics.
- Collect Vertica Enterprise Edition solution configuration information.

Onsite Assessment Visit

- Onsite visit is held at one (1) of your sites, mutually agreeable to you and Micro Focus.
- Onsite visit commences with a one (1) to two (2) hour overview session to discuss your system architecture and key use cases. The purpose of the session is to familiarize the Specialist with your environment, and to establish the agenda for the remainder of the onsite visit.
- The Specialist will work with your employees to collect relevant system configuration and profile information. This information is essential to the remaining analysis and recommendations that will be produced by the engagement.

Analysis and Documentation of the Deployed Vertica Enterprise Edition Environment

- **Analysis:** After the conclusion of the onsite portion of the Service, the Specialist will continue additional analysis over a period of up to four (4) business days.
- **Documentation:** Your system architecture, analysis, and recommendations are compiled and delivered to you in a written report approximately one (1) week after the onsite visit.
