

1st February 2023

Dear Micro Focus Supplier,

Acquisition of Micro Focus by OpenText

OpenText has completed the purchase of Micro Focus. We are excited to provide expanded offerings to support customers' growing needs to digitize and work smarter. With 25,000 experts strong and customers that fuel our innovation, the world of information management in the cloud just got stronger.

Our combined organization presents significant growth opportunities and continued success for your company. While it is business as usual for now in terms of our existing policies and arrangements with you, we do encourage suppliers to start familiarizing themselves with OpenText's Procurement policies (including No PO No Pay, standard payment terms of Net 75 days unless otherwise required by law etc.) [here.](#)

Please also start thinking about how you will reciprocate in terms of improvements to the enlarged OpenText's business. Our Global Procurement team members will reach out soon to address potential synergy opportunities, and to collaboratively leverage your expertise and industry knowledge. We always welcome suppliers who proactively present us with improvement opportunities, so please do not hesitate to contact your counterpart in the Global Procurement team if you have a significant improvement proposal in mind.

We want to assure you that you can still expect excellence from our organization as Micro Focus is integrated with OpenText. In the coming months, we will be working with all our vendors through the integration. We thank you in advance for your collaboration.

If you have any questions with regards to the integration, you can reach us at microfocus.procurement@microfocus.com

Sincerely,

Micro Focus Finance & Procurement Team
