Product use authorizations

Most Micro Focus Software products have product use authorizations that are governed by Additional License Authorizations. Micro Focus delivers the Additional License Authorizations (ALA) document(s) electronically; the documents are available from MySupport/MediaBin through the Contracts and Licensing page. This document provides you with an overview of and links to the ALA document applicable to a product.

Application Modernization and Connectivity

The next table lists the currently active Additional License Authorizations documents by Application Modernization and Connectivity software product. By clicking on the Document ID, the document will be downloaded.

Previous versions of Additional License Authorizations documents

The above listed Additional License Authorizations are the ones that apply to new purchases from the date the ALA document was published. The version that applies to the date of a previous purchase was delivered along with the license certificate or right-to-use certificate for the purchased license(s). Effective April 2009, ALA documents are published on MySupport. When a new ALA document is being published, the replaced ALA document can be found through the Self-solve Knowledge Search. Enter ALA as a keyword to search on and select document type Manuals. Then click on Search to look for documents with Additional License Authorizations. You can either search these for all products or for a specific product, as long as you also select All Versions and All Operating Systems.

To search for an ALA document, you need to sign in to MySupport with your Passport account.
