## Definitions

Term	Definition
Concurrent Users	Means individuals who, at the same point in time, have accessed or used the Licensed Software via any device or other software program, directly or indirectly, regardless of how such access occurs or whether such user uses any hardware or software that reduces the apparent number of users who are using the Licensed Software, such as by using a terminal service. Access or use means the ability to use, copy or operate the Licensed Software or the loading of any part of the Licensed Software into random access memory (RAM) of a computer.
E-LTU and E-Media	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Named User	Means a single employee of Licensee who has been designated as an authorized user of the Licensed Software.

## License Options

The following License Options are the types of licenses available for a given software product as further specified in this ALA. The applicable License Option for a license shall be as set forth in the Applicable Agreement or Product Order. Those products with only one License Option available shall be governed by such License Option whether or not stated in the Applicable Agreement or Product Order unless otherwise agreed in writing between Licensee and Licensor.

### Named User License

Under this License Option, each Named User requires a Named User License which provides Licensee the right to install the Licensed Software on up to five machines per license and permit a single Named User per license to use the Licensed Software. Licensee may change a Named User provided that the change is made either permanently away from the original Named User or temporarily to accommodate the use of the Licensed Software by a temporary worker while the Named User is absent, but in no event more than once every 30 days.

### Standard User License

Licensed Software provided under this License Option gives Licensee the right to install the Licensed Software on multiple machines for use by the maximum number of Concurrent Users expressly authorized by Licensor in the Product Order and for whom Licensee has paid the applicable license fee. Upon commencement of use of the Licensed Software by a Concurrent User, such use shall be deemed to continue for a minimum of 168 continuous hours even if actual use by such user ceased prior to the full duration of such minimum period.

### Flexible User License

Licensed Software provided under this License Option gives Licensee the right to install the Licensed Software on multiple machines for use by the maximum number of Concurrent Users expressly authorized by Licensor in the Product Order and for whom Licensee has paid the applicable license fee. Upon commencement of use of the Licensed Software by a Concurrent User, such use shall be deemed to continue for a minimum of 24 continuous hours even if actual use by such user ceased prior to the full duration of such minimum period.

### Per Server License

A Per Server License may be installed on only one server per license for use by an unlimited number of users.

## Additional License Options

The following additional License Options may also apply to one of the License Options above if set forth in the applicable Product Order notwithstanding anything else to the contrary in this ALA:

### Third Party Usage License Extension

For a license for which a Third Party Usage License Extension has been purchased, such license can be used by third party contractors of Licensee, notwithstanding any restriction to the contrary in the Applicable Agreement, provided that (1) each such third party is under a written obligation of confidentiality and restrictions of use which provide for protections and limitations of use of the license no less restrictive than the Applicable Agreement, (2) the license will only be used on behalf of Licensee, (3) such use is subject to the terms and conditions of the Applicable Agreement, and (4) Licensee remains liable for any breach by any such third party of the terms of the Applicable Agreement.

## **Additional License Terms**

The following additional license terms shall apply to any software governed by this ALA:

### **Additional License Restrictions**

Licensee shall not:

1. Transfer, ship or use the Licensed Software outside the continent in which it was originally licensed to Licensee without first purchasing an Off-Continent License Extension or otherwise paying Licensor any applicable additional fees required by Licensor. For purposes of the foregoing, "continent" shall mean North America, South America, Europe, Africa, Asia, Australia, or Antarctica.
2. Install, access or use the Licensed Software on a Platform other than the Platform for which the Licensed Software was originally licensed to Licensee. Additional licenses for use of the Licensed Software on a Platform other than the one set forth in the applicable Product Order may be available upon payment of an additional license fee.

### **License Authorization Server**

The Licensed Software may include technology for monitoring authorized use including without limitation the policy files and license keys required to use the Licensed Software (the "License Authorization Server" or "LAS"). The LAS may only be installed on a single computer system. Regardless of the installation of the LAS, Licensee must remain compliant with the terms of this ALA.

### **Third Party Components**

The Licensed Software may have embedded components licensed to Licensor by third party suppliers. In addition to the obligations with respect to Third Party Components elsewhere in the Applicable Agreement, Licensee shall maintain the confidentiality of such components and not make any unauthorized disclosure of such components.

### Academic Edition

Where Licensed Software is licensed under Licensor's Academic Program, in addition to the above terms and conditions:

- (i) Licensee shall not use the Licensed Software for any purpose other than for non-commercial education or academic research activities.
- (ii) Licensee shall not copy the Licensed Software, nor shall Licensee distribute, transfer or assign the Licensed Software without specific permission from Licensor.
- (iii) License management: If Licensee is the academic institution using the Licensed Software for teaching purposes, Licensee will manage all student licenses through a license server provided by Licensor in accordance with guidelines provided by Licensor. Licensee agrees to provide reports describing the number of licenses Licensee has issued in each period upon Licensor's request.

### Java

The Licensed Software may require Licensee to separately obtain the Java™ Platform, Standard Edition Runtime Environment (JRE), and in such event any use of the JRE shall be governed by the license agreement accessible at <http://www.oracle.com/technetwork/java/javase/terms/license/index.html>. Use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features identified Table 1-1 (Commercial Features In Java SE Product Editions) of the Java SE documentation accessible at <http://www.oracle.com/technetwork/java/javase/documentation/index.html>. Licensee may not create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "javafx", "sun", "oracle" or similar convention as specified by Oracle in any naming convention designation.
