# Additional License Authorizations

For Connected software products

## Products covered

Products	E-LTU or E-Media available*	Perpetual License Non-production software class **	Term License Non-production software class (if available)
Connected Backup	Yes	Class 3	Class 3

\* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

\*\* Non-production use rights, if any, can be found at [software.microfocus.com/legal/software-licensing](http://software.microfocus.com/legal/software-licensing).

## Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
Agent	Means that portion of the software that manages and is required for each physical or virtual PC, laptop, or Mac device for which backup is required.
Device or Dev	Means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
E-LTU and E-Media	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Implementation	Means an installation of the software on a single Server or installed on a Cluster of Servers which work together as a single installation of the software.
Instance	Means each Implementation of the application installed on a Server.
Internal Use	Means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	Means License To Use.
Media or Medium	Means typically a tape or a file on disk holding backup data.
Mirrored Server	Means the configuration of two identical Servers (OS Instances). that provide redundant storage of data and failover backup and retrieval service.
Operating System Instance or OS Instance or OSI	Means each implementation of the bootable program that can be installed onto a physical system or a partition, such as system Virtual Machines, virtual environments, virtual private servers, containers, guests and zones, within the physical system. A physical system can contain multiple Operating System Instances. A container means a system partition based on software rather than hardware. Guests means a VM system running on a host system where the host runs its own complete OS Instance (as opposed to a hypervisor), like VMware Workstation. Zone means Oracle/Sun Solaris specific nomenclature for a software partition which can run a virtual OS instance including but not limited to Sparse, native, and ipkg.
Single Server or Svr	Means a designated computer system in which an Instance or Instances of the software is installed.
Suite	Means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the Software Specific License Terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
Use	Means to install, store, load, execute and display one copy of the software.
Virtual Machine or VM	Means a computer that does not physically exist but is simulated by another computer.
Workstation	Means a desktop system (for Microsoft platforms this is typically running Windows XP or Windows Vista operating system) in contrast to a server system, typically located in the data center (for Microsoft platforms this is typically running Windows 2003/2008 Server operating system).

## Additional License Authorizations

For Connected software products

---

## Software Specific License Terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

### Connected Backup

**Connected Backup** is licensed by Single Server, by Mirrored Server and by Agent.

## Additional License Terms

Term
A. Unless stated otherwise, you are authorized to Use one Device at a time for your Internal Use.
B. Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
C. Any licensing terms designated as being of Autonomy that may be embedded in the software are inapplicable in their entirety.
