Additional License Authorizations

For File Management, Governance, and Data Access Governance software products

This Additional License Authorizations (“ALA”) sets forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the Micro Focus End User License Agreement applicable to the products specified below (“EULA”) or such separate license agreement executed in writing by Licensee and Licensor that is specifically applicable to such products (“Master Agreement”). The EULA, or Master Agreement if such agreement exists, shall be known as the Governing Agreement. Capitalized terms used but not defined herein shall have the respective meanings given to them in the Governing Agreement. All products below are delivered electronically, unless otherwise agreed, and as such, any inconsistent terms that are stated on a purchase order or any other document issued by Customer, are void.

Products and Suites covered

Products	Non-production software class*	Term License Non-production software class (if available)
File Dynamics	Class 1	Class 1
File Reporter	Class 1	Class 1
File Reporter for OES	Class 1	Class 1
Storage Manager for eDirectory	Class 1	Class 1

Suites	Non-production software class*	Term License Non-production software class (if available)
Data Access Governance	Class 1	Class 1
File Governance Suite	Class 1	Class 1
File Management Suite for OES	Class 1	Class 1

*Additional licenses solely for non-production use may be available as specified in the Non-Production Licensing Guide found at opentext.com/about/legal/software-licensing depending on the non-production software class specified above. Any such non-production licenses will be subject to the Non-Production Licensing Guide and the applicable License Option terms and conditions set forth in this ALA.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
Per Managed Identity License	Means user and/or custom objects (including either or both human and/or non-human objects but not including group objects) collected within the Software from all user or identity sources. For purposes hereof, an “identity” means active, unique user and/or custom objects including either or both human and/or non-human objects. Inactive identities (not accessed in more than 120 days and marked as “disabled”) do not require licenses. If You have a “per managed identity” license, the following terms and conditions apply to Your use of the Software: A “per managed identity” license is required for every active, unique “identity” managed by or connecting through the licensed product.
User	Means a user object in a single directory tree (or other class of object that contains data representing a person, such as objects containing credit card information or PIN numbers) that interacts with the Software as specified below for the applicable products, regardless of whether the user object is assigned to a person or device. User objects (or other classes of objects) representing the same person that are linked to each other within a single tree and/or linked across multiple trees count as only one User.

License Options

Evaluation Software

If the Software is an evaluation version or is provided to You for evaluation purposes, then, unless otherwise approved in writing by an authorized representative of Licensor, Your license to use the Software is limited solely for internal evaluation purposes in non-production use and in accordance with the terms of the evaluation offering under which You received the Software, and expires 60 days from installation (or such other period as may be indicated within the Software). Upon expiration of the evaluation period, You must discontinue use of the Software, return to an original state any actions performed by the Software, and delete the Software entirely from Your system and You may not download the Software again unless approved in writing by an authorized representative of Licensor. The Software may contain an automatic disabling mechanism that prevents its use after a certain period of time.

Software Specific License Terms

Software products with software specific license terms are described below. Software products covered by this ALA document and not covered in this section do not have software specific license terms.

File Dynamics

File Dynamics is licensed by User or Per Managed Identity. You must acquire a user license for each User that has access rights to file storage managed by the Software. Each person who accesses or uses the Software must have at least one user object uniquely assigned to that person and access the Software through the user object. Provided that You comply with the above requirements, You are authorized to internally use an unlimited number of copies of the Software.

File Reporter

File Reporter is licensed by User or Per Managed Identity. You must acquire a user license for each User that has access rights to files reported on by the Software. Each person who accesses or uses the Software must have at least one user object uniquely assigned to that person and access the Software through the user object. Provided that You comply with the above requirements, You are authorized to internally use an unlimited number of copies of the Software.

File Reporter for OES

File Reporter for OES is licensed by User or Per Managed Identity. You must acquire a User license for each User that has access rights to files reported on by the Software. Each person who accesses or uses the Software must have at least one user object uniquely assigned to that person and access the Software through the user object. Customer is authorized to use an unlimited number of copies of the Software only in compliance with this section. This software cannot be deployed in an Active Directory Environment.

Storage Manager for eDirectory

Storage Manager for eDirectory is licensed by User or Per Managed Identity. You must acquire a user license for each User that has access rights to file storage managed by the Software. Each person who accesses or uses the Software must have at least one user object uniquely assigned to that person and access the Software through the user object. Provided that You comply with the above requirements, You are authorized to internally use an unlimited number of copies of the Software.
