

# Global User Groups for ArcSight, Fortify, NetIQ, and Voltage

Vision	Mission Statement	Values
<p>We value the insight and input of our customers and are proud to encourage and support them in creating a path to community collaboration and direct access to CyberRes resources to assist in their path to cyber resilience.</p>	<p>The CyberRes User Group provides our members with an open environment in which they can meet, share ideas, teach, train, and encourage each other in reaching cyber resilience.</p>	<ul style="list-style-type: none"> <li>■ We appreciate our customers and value their input and contribution to our success.</li> <li>■ We believe in the power of customer-to-customer support and communication.</li> <li>■ We believe in the value of a community focused on shared ideas and goals.</li> <li>■ We believe that a company is more successful when it encourages and supports its customers.</li> </ul>

## CyberRes User Group Benefits

### Members Drive the Agenda

Determine what content is most relevant to you and your business.

### Reinforced Support

Benefit from a supportive community with a vast knowledge base and first-hand product experience.

### Full Circle Communication Channel

Enjoy direct lines of synergistic communication with colleagues and CyberRes experts.

### Access Additional Resources

Get the most out of your products through education, training, and presentations.

### Grow Your Network

Experience an array of interesting and fun collaboration opportunities with a network of peers.

### Elevate Your Skillset

Be among the first to test new products and shape new features in the product roadmap.

### Share Your Knowledge

Increase your impact by sharing your knowledge with the global community.
