Deliver the right services, at the right time, for the right price.

Cloud service providers are making inroads into the enterprise.

Just building a cloud is not sufficient.

“The ‘if you build it, they will come’ strategy usually will fail because users aren’t prepared to use the services, or the services miss the mark on their requirements.”

—Gartner

Five principles for a successful cloud services lifecycle

Let’s get started

www.microfocus.com/hcmservices

More than 80% of employees use non-approved SaaS applications in their jobs.1

Shadow IT is on the rise.

42% of IT spending is funded outside of the IT budget.3

99% uptime

33% of the IT budget is spent on cloud subscriptions and services.

Micro Focus Professional Services covers the end-to-end cloud services lifecycle.

Here’s the bottom line:
The corporate enterprise expects “everything as a service.”

Corporate IT can meet this expectation by adopting a hybrid service delivery model and becoming the service provider of choice.
