

# Get Inspired to Orchestrate

OpenText Operations Orchestration takes IT process automation to new places.

## Automation Unleashed

Automate your IT processes—on premises and in cloud—across teams, tools, and environments.

## Plug-and-Play, Your Way

Design reusable, shareable building blocks for your automation workflows. Orchestration has never been this much fun.

Use 1,000s of out-of-the-box operations and workflows

Design your own content with custom operations and friendly integration wizards.

Invoke Operations Orchestration from almost anywhere.

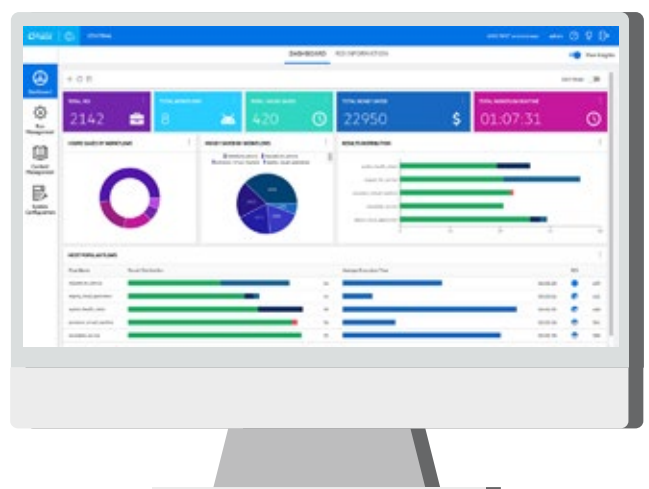

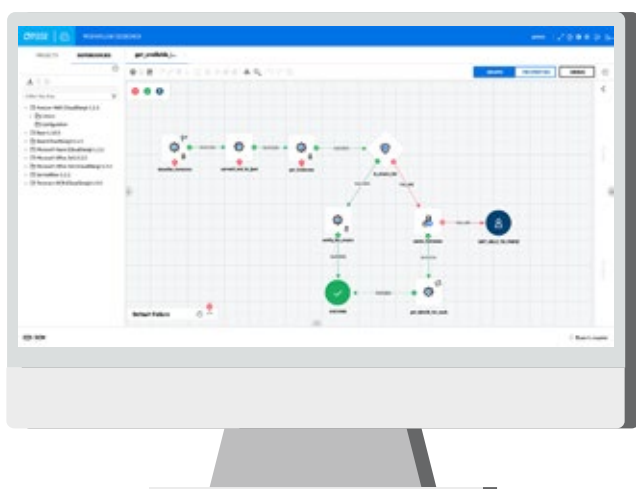

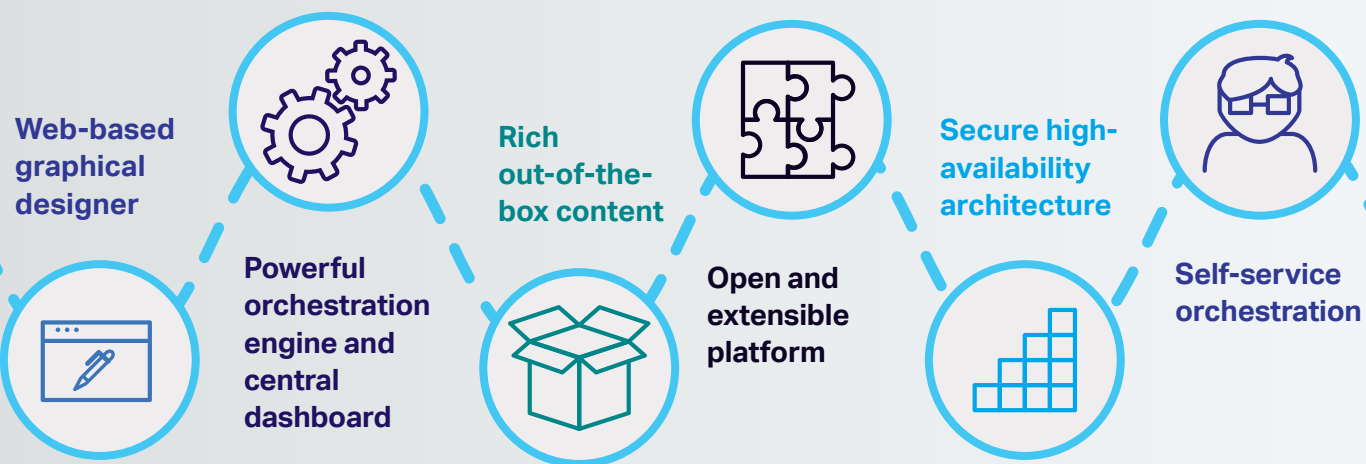

## Orchestration Power at Work

Say goodbye to brittle integrations and multiple handoffs. Your business benefits are about to arrive.

## A Better Way to Orchestrate

Design, deploy, run, and monitor your IT automations with new ease, speed, and agility. OpenText Operations Orchestration makes it possible.
