

Run and Transform— At 280 kph

Different track. Same race.

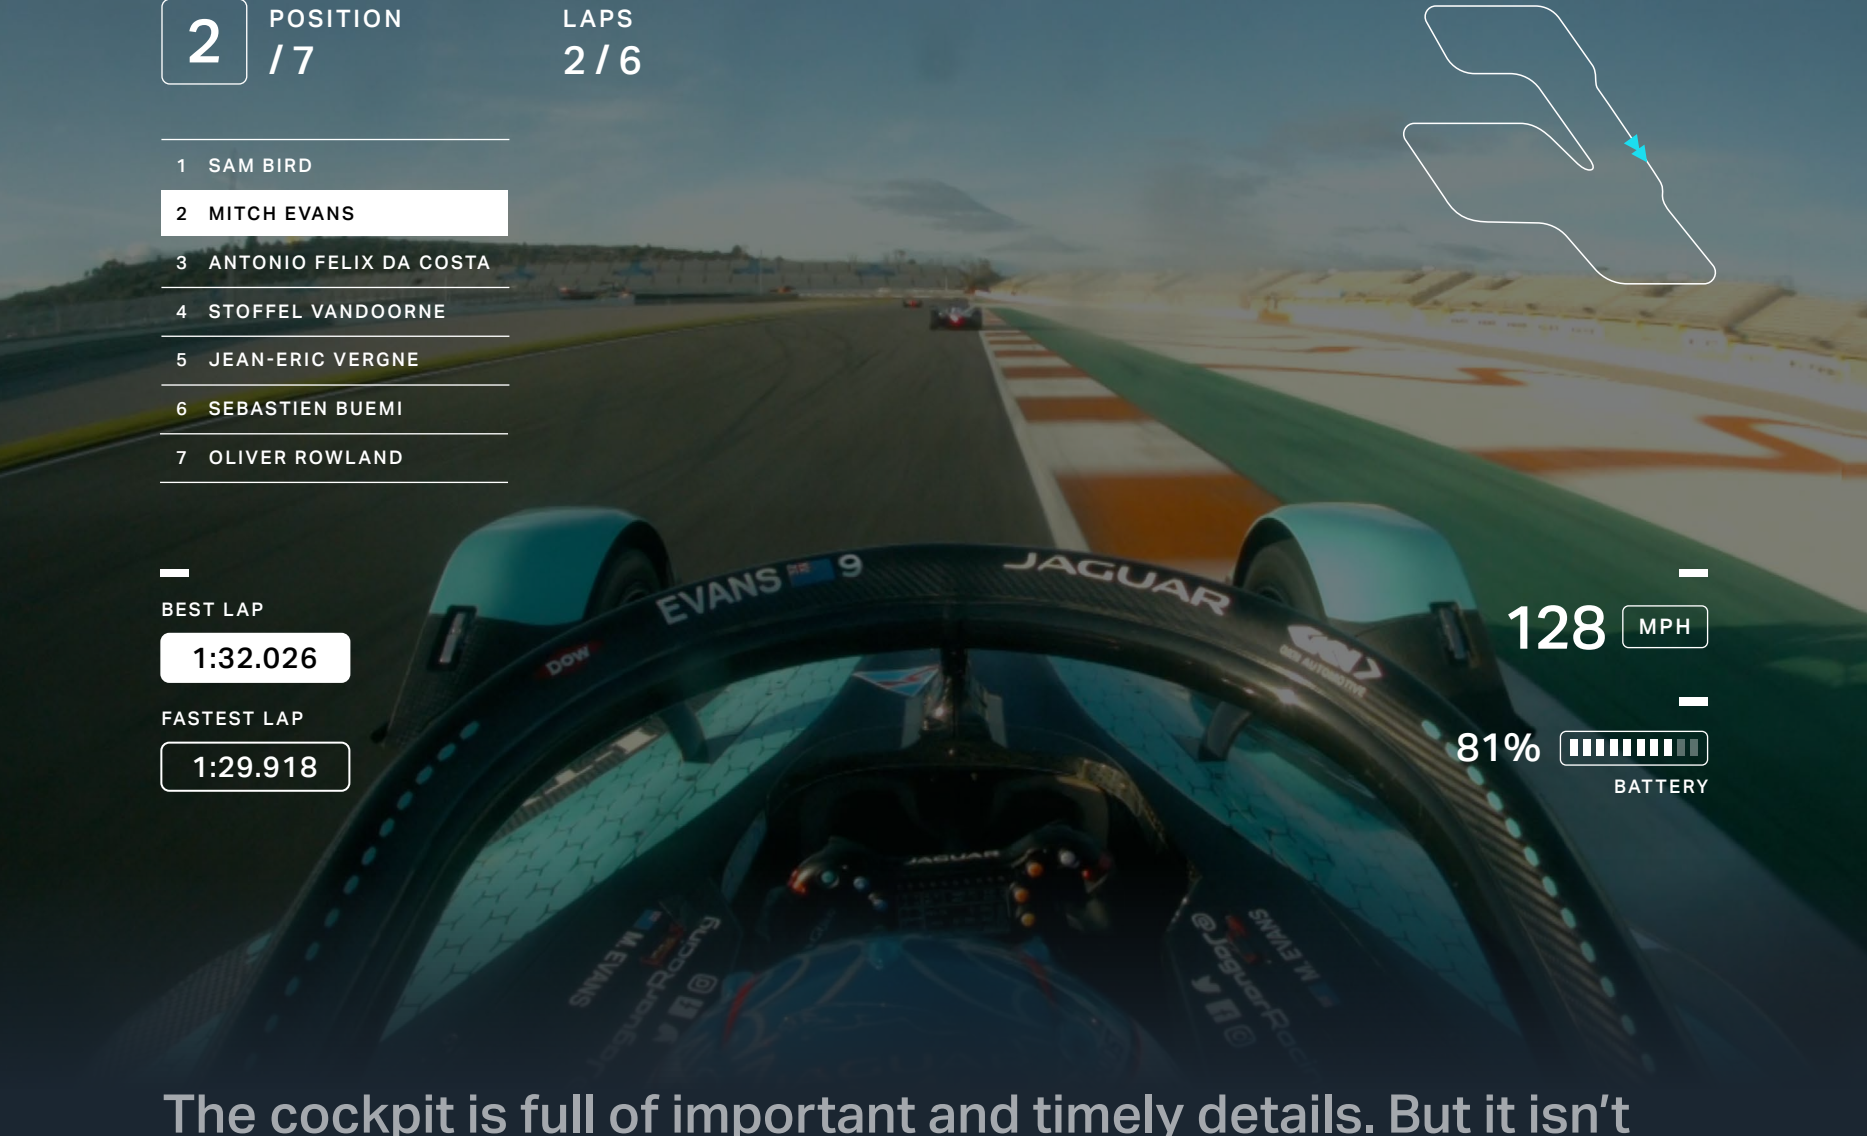

Jaguar TCS Racing competes in the ABB FIA Formula E World Championship, an all-electric street racing series.

Micro Focus delivers mission-critical software to thousands of customers around the globe.

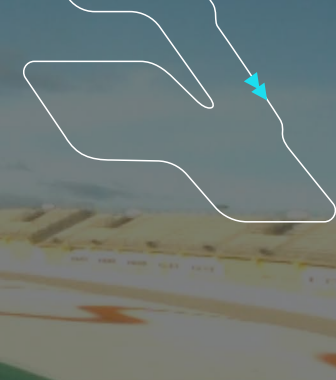

Micro Focus helps Jaguar TCS Racing run and transform to compete, innovate, and advance their sustainability goals. Similarly, we help all our customers solve the digital dilemma of how to run today, and transform to take advantage of opportunities tomorrow.

The View from the Cockpit

2 POSITION / 17 LAPS 2 / 6

- 1 SAM BIRD
- 2 MITCH EVANS**
- 3 ANTONIO FELIX DA COSTA
- 4 STOFFEL VANDORNE
- 5 JEAN-ERIC VERGNE
- 6 SEBASTIEN BUEMI
- 7 OLIVER ROWLAND

BEST LAP
1:32.026

FASTEST LAP
1:29.918

128 MPH

81% BATTERY

The cockpit is full of important and timely details. But it isn't the whole story. You have to balance in-race data (track conditions, energy management, competitors' positions) with strategic data (optimizing hundreds of parameters, analyzing fan input) to improve your performance. For Jaguar TCS Racing, we do it in four key areas:

- 01 Core Applications Powering Results**
- 02 Data-Driven Racing**
- 03 Cloud-Based Racing Model**
- 04 Secure Race Analytics**

We're working with Jaguar TCS Racing to balance all of these critical inputs—before, during, and after a race—so they can compete at ever-higher levels for more points, podiums, and wins.

01 Core Applications Powering Results

Micro Focus speeds application delivery and reduces risk.

50 Applications used by the race team

40-50 per race day Parameter files updated

250K+ Lines of code embedded per race car

02 Data-Driven Racing

Micro Focus increases prediction speed and accuracy.

328M Global fans

15TB Key car data to be analyzed

700+ Key parameters to optimize

03 Cloud-Based Racing Model

Micro Focus helps simplify IT transformations.

100 Key infrastructures supporting the team

3 Operating systems

04 Secure Race Analytics

Micro Focus helps strengthen cyber resilience.

16 Locations around the world requiring network protection for secure race data access

Unknown Vulnerabilities the team must address each day

Partnership Matters

As the official technical partner for Jaguar TCS Racing, our world-class software works behind the scenes to help drive improvements and results in the fast-changing environment of Formula E.

We do the same thing for all of our customers—helping them run in today's market conditions, and transform for tomorrow's opportunities—to provide exceptional customer experiences in the digital economy.
