School License Agreement Program Guide

The School License Agreement (SLA) is a licensing vehicle for primary education institutions (K–12). With a short, simple contract and easy annual payment calculations, this agreement meets the changing requirements of primary education institutions to license, implement, and maintain their software investments. This program not only lowers software costs but also helps you spend less time on software acquisition and more time focusing on your business.

Here are just a few of the benefits you'll find in the SLA program:

- Preferential pricing available only to qualified Academic customers
- Easy license counting and payment
- Upgrades and Updates included at no additional charge
- Renewable one-year agreement terms
- Minimum annual fee of just USD \$1,000

A Program that Works for You

As a qualified academic institution¹, you can radically simplify software management for your organization by purchasing through the SLA. You decide which counting method works best for your organization: Student Enrollment² or Workstation count. You also have control of the products you want to use throughout your organization. To determine your Annual Fee, simply use the pricing and product information on the SLA Annual Fee Worksheet located on-line at www.novell.com/licensing/. Once you pay this fee, you have completed your licensing of your selected Micro Focus® products for the year.

Order Fulfillment

Under the SLA Program, you may order *the eligible Micro Focus* software and services directly. Additionally, you may also place your order conveniently through qualified fulfillment agents. Our partners are ready to assist you in all your licensing needs. To find a *qualified* partner in your area, please utilize our Partner Locator located at: www.novell.com/partnerlocator

Latest Product Versions

The software you license through the SLA program automatically gives you access to the latest version of the software. This benefit lowers the cost of software procurement and gives you access to the latest versions of eligible Micro Focus software throughout the term of your SLA.

Easy Installation

Once you have enrolled in the SLA and submitted your Annual Fee Worksheet, you may download the software you need through the Customer Center, located at <https://secure-www.novell.com/center/>. You may install the software throughout the organization as needed. Should you need to add additional students or servers, no problem! Your licenses have already been paid via your Annual License Fee.

Discounts on Perpetual License Purchases

As an SLA customer, you may purchase perpetual software licenses and other offerings at a discounted price through the VLA for Education Program. For details on the VLA for Education, please see the VLA Program Guide at: www.novell.com/licensing/vla_programguide.pdf

- 1 Eligibility to purchase under the Academic Buying Programs or to receive academic pricing is limited to qualified educational institutions. Proof of status may be required upon execution of any licensing agreement. See www.novell.com/licensing/academic/qualify.html for eligibility details.
- 2 **NOTE:** Under the student count option, although the fees are payable based on student enrollment, once the fee is paid, then all staff at the school are also entitled to use the software on the same terms.

Additional Support, Training and Consulting Services

Services offer customers peace of mind as they design, build and support their IT systems. Micro Focus support programs and offerings allow you to build a customized package to meet your needs and maximize the value of your Micro Focus investments. Details on all available support offerings can be found at www.novell.com/support/. Pricing for upgrades, stand-alone and add-on services are available on the Academic Worksheet or through a qualified sales fulfillment agent.

The Micro Focus product portfolio contains a variety of products for use in data center environments and for end-users. Customers should periodically review the Support Product Lifecycle page for information concerning lifecycle support policies. For information concerning SUSE Linux Enterprise support lifecycle policies, please refer to <http://support.novell.com/lifecycle/linux.html>. For all other products, please review the policies for Support Product Lifecycles at: <http://support.novell.com/lifecycle>

For any services provided by Micro Focus under the School License Agreement through a Statement of Work, or in the absence of a separately signed Consulting or Services Agreement, in addition to the license agreement terms, the terms and conditions located at www.novell.com/licensing/contracts/services_tc.pdf shall apply to the services, and are considered part of this program guide.

Enroll or Renew

New customers must submit a signed copy of the contract and an Annual Fee Worksheet in their first year of enrollment. Existing customers should submit a completed Annual Fee Worksheet each year. Contract Forms and Program documentation can be found on-line at www.novell.com/licensing/academic/sla.html. Late renewals may be subject to an additional fee.

This Program Guide is subject to change. Any dollar amounts provided in this document are in U.S. dollars. Some licensing benefits, including these dollar amounts, may vary by geographic region. Please contact your local Micro Focus office for additional information. All buying programs are governed by the terms and conditions of the specific License Agreement, which incorporates the information provided in this Program Guide.
