Micro Focus Certification Levels

Micro Focus certification levels enable you to prove your degree of mastery of Micro Focus products. Use certifications to verify your abilities and enhance your career. Certifications are available in four levels of increasing difficulty.

**Micro Focus Specialist**

Specialist badges are awarded in conjunction with training courses. Candidates must demonstrate a fundamental knowledge of technology, product concepts, and operations for a specific product role.

**Micro Focus Certified Professional**

Professional certifications are awarded based on passing an exam. Recommended training courses are identified to provide a learning path to attain the required skills. Candidates must demonstrate that they are fully competent in product concepts and operations in specific or multiple product roles.

**Micro Focus Certified Expert**

Expert certifications are awarded based on passing an exam. Recommended training courses are identified to provide a learning path to attain the required skills. Candidates must demonstrate operational expertise and an understanding of advanced concepts.

**Micro Focus Certified Master**

The pinnacle of our certifications. Master certifications are awarded based on passing an exam plus completion of other certifications and courses. Candidates must demonstrate mastery of multiple product roles or various products in a suite or solution group.
Certification Learning Path – Symbology

Job Role
