OpenText Content Manager

It's time to move on from past success...

30+

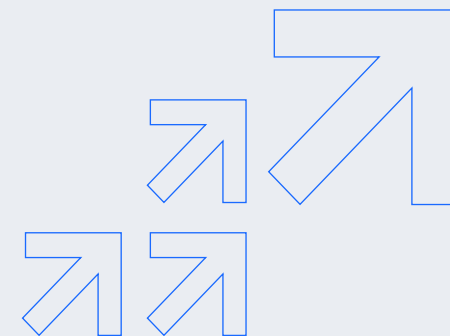

years of innovation

2,500+

organizations

1.8M+

end-users

...to future opportunities—

with confidence, flexibility, and choice.

Leverage the innovation. Content Manager Version 10.1 is ready to go:

- Mobile app for search and collaboration
- WebClient grid view for search results
- Microsoft Teams integration
- XDMS (External Document Management System) integration
- FileSystem Manage-in-place
- AWS Storage - new authentication options
- Compliance and certification enhancements

Three and easy—choose your path to Version 10.1.

Which one works for you?

Three upgrade paths to Content Manager 10.1, all built on the latest upgrade innovations.

1

As you were:

Content Manager 10.1

Update to the latest version. Retain your traditional perpetual license and remain on premises.

The robust enterprise content management functionality in Content Manager 10.1 will help you meet regulatory and data privacy guidelines.

2

A bit of a tweak:

Content Manager Select

Move to a subscription-based usage model that includes additional complimentary features and extend usage across the enterprise at a low operational cost.

Content Manager Select is OpenText Content Manager supplied as a flexible subscription model. An annual subscription means:

- no additional support or maintenance fees
- an enriched user experience
- access to additional modules
- free unlimited inquiry user access.

3

All change:

Content Manager Cloud

Migrate to our efficient, high-availability cloud-based solution, offering trusted Content Manager at a lower TCO.

Our multiple, geographically diverse data centers underpin a secure, flexible, fully managed service.

SLAs offer up to 99.95% availability, full disaster recovery and administration. You manage the content we'll take care of the service.

Don't miss out.
Get up to date.
