

# Find, Purchase, and Deploy Micro Focus Products from AWS Marketplace

Application Delivery Management (ADM) is a set of integrated software solutions that enable IT and line of business teams to accelerate delivery and ensure quality and security at every stage of the application lifecycle. Micro Focus has partnered with Amazon Web Services (AWS) Marketplace to deliver ADM solutions in an easy, cost-effective, and scalable model for organizations that want to take advantage of cloud economics without a costly capital outlay or long-term commitment.

## Micro Focus on AWS Marketplace at a Glance:

- **Simple:** Provision and deploy quickly and reliably—simply click, configure, and go.
- **Cost-effective:** Pay as you go; consume the way you want.
- **Convenient:** Consolidated billing, cost analysis, and subscription management.
- **Seamless:** Continue to work with and buy through your existing Micro Focus partners.

## Delivery Is Fast and Flexible

Different deployment options are available for products on AWS Marketplace. You can consume the products as Software as a Service (SaaS), a container, or AWS Marketplace can provide you with an Amazon Machine Image (AMI), a virtual server made available to you with the CPU, memory, and storage.

## Private Offers

While you can purchase software directly through the AWS Marketplace, it's also possible to purchase ADM software products on the AWS Marketplace through Micro Focus. The advantages of this are that Micro Focus can offer you preferential pricing and licensing terms while you continue to consume the products from AWS Marketplace. These private offers are extended directly by Micro Focus, with a set expiration date. Contact your Micro Focus® sales rep for more details of AWS Marketplace private offers.

## AWS Payment Programs and Purchase Process

Leverage your existing AWS Enterprise Discount Program (EDP) budget, or other AWS dedicated funds, to purchase ADM products on AWS Marketplace.

Buy the way you want:

- Directly through AWS Marketplace.

- Through your Micro Focus sales rep with a private offer.
- Through your preferred Micro Focus-approved partner with a private offer.

## Micro Focus Application Delivery Management on AWS Marketplace

ADM includes application lifecycle management, functional testing, performance testing, mobile testing, and release management solution. The ADM portfolio supports software delivery teams using any development methodology or framework, from traditional waterfall to modern agile and fast-paced DevOps. The portfolio is designed to support organizations of any size and vertical, from small teams to large enterprises, providing end-to-end visibility and insight into strategic investments all the way from portfolio planning through development, testing, deployment, and production.

Key benefits of ADM on AWS Marketplace:

- **Rapid Provisioning:** Get up and running quickly and seamlessly.
- **Pay as you go:** Only pay for the software you use, with the option to scale up or down as you need.
- **No waiting:** Purchase and get started immediately.
- **Enterprise discount:** Use your Enterprise Discount Program (EDP) budget for ADM products, and enjoy significant savings.

**Centralized tracking and management of app needs, Agile team progress**

**Visibility and control across complex projects**

**Acceleration of software and testing across all applications**

**Orchestration of continuous-delivery pipeline**

**Consistent user experiences every time, on any device**
