

# Micro Focus iPrint Appliance 5.0 Release Notes

February 2023

Micro Focus iPrint Appliance is a virtual appliance that offers cross-platform, self-service printing for the enterprise. It allows users to print from their desktops, laptops, and mobile devices. Micro Focus iPrint Appliance supports NetIQ eDirectory, Active Directory and Microsoft Identity as user identity sources. It scales to fit organizations of any size and provides a single solution to manage the printing needs across multiple locations.

The appliance runs as a virtual machine within any virtualization environment such as VMware, Windows Hyper-V, Citrix Xen Server, or Xen on SUSE Linux Enterprise Server (SLES).

## iPrint Appliance 5.0 - Highlights

- ♦ [“iPrint Management Client” on page 1](#)
- ♦ [“Welcome Page” on page 2](#)
- ♦ [“In-built PDF Renderer” on page 2](#)
- ♦ [“LPR Print Support” on page 2](#)

## iPrint Management Client

iPrint Management client is a browser-independent management tool. This is a Standalone utility for managing printer drivers and driver profiles. Only iPrint Administrators have access to this. Administrators can upload drivers for Windows, Mac and Linux. It provides a seamless experience, improved security and large driver uploads are made easy and fast. For more information, see [iPrint Management Client](#) in the [Micro Focus iPrint Appliance Administration Guide](#).

## Welcome Page

The iPrint Appliance Welcome Page is enhanced as per the Micro Focus UX standards and it provides a new look and feel.

## In-built PDF Renderer

The in-built PDF rendering experience using the remote renderer is improved.

## LPR Print Support

In iPrint Appliance 5.0, the iPrint support to LPR printing is restored. The issues are fixed.

## Known Issues

- ♦ [“General Issues” on page 2](#)
- ♦ [“iPrint Appliance patch 5.0.1 Issue” on page 2](#)

## General Issues

Printing documents with SmartArt graphics or tables may impact the quality of the printout. It is recommended to deploy Remote Renderer to resolve such issues.

## iPrint Appliance patch 5.0.1 Issue

After upgrading to iPrint Appliance 5.0 patch 1, unable to view installed patches information from the Management Console.

To view the patch information, use `zypper patches` command.

## iPrint Appliance System Requirements

For iPrint Appliance system requirements, see [Server Requirements](#) in the [Micro Focus iPrint Appliance Administration Guide](#).

## Documentation

For additional iPrint Appliance documentation, see the [iPrint Appliance documentation web site](#).
