

NetIQ SecureLogin 9.0.1 Patch 1 Release Notes

October 2022

NetIQ SecureLogin 9.0.1 Patch 1 enhances the product capability and resolves several previous issues. Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [SecureLogin forum](#) on our community website that also includes product information, blogs, and links to helpful resources. You can also share your ideas for improving the product in [Ideas Portal](#).

For more information about this release and the latest release notes, see the [NetIQ SecureLogin documentation](#) page. Note that SecureLogin 9 documentation is available on the Micro Focus domain. For SecureLogin documentation versions prior to 9, see [NetIQ Documentation](#).

If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [NetIQ SecureLogin documentation](#) page.

Resolved Issues

The following issues have been resolved in NetIQ SecureLogin 9.0.1 Patch 1:

ID	Module	Description
211321	Client for OES	OES Client login fails and does not connect to the eDirectory when SecureLogin is installed.
209965	Client General	Special characters are typed incorrectly for all keyboards except ENG-US.
210981	Client GUI	SideBySide Error seen in Event Viewer and error in manifest or Policy File.
209966	Client General	After upgrading SecureLogin from 8.7.1 to 9.0.0.1, trying to login with smart card causes SecureLogin to crash.

System Requirements

For information about hardware requirements, supported operating systems, and browsers, see [NetIQ SecureLogin System Requirements](#).

Upgrading NetIQ SecureLogin 9.0.1 with Patch 1 Update

NetIQ SecureLogin 9.0.1 Patch 1 is available to download from the [Software License and Download \(https://sld.microfocus.com/\)](https://sld.microfocus.com/) portal. For information about how to download the product from this portal, watch the following video:

 <http://www.youtube.com/watch?v=esy4PTVi4wY>

For information about how to upgrade, see [SecureLogin 9.0 Installation Guide](#).

Supported Upgrade Paths

To apply NetIQ SecureLogin 9.0.1 Patch 1, NetIQ SecureLogin 9.0.1 is required.

To upgrade to SecureLogin 9, you must be on one of the following versions of SecureLogin:

- ♦ 8.7
- ♦ 8.8
- ♦ 8.8.1

Upgrade or migration from SecureLogin 8.6, 8.5, 8.1, 8.0, or 7.0 might work, but it is not tested. Ensure that you test the upgrade from SecureLogin 8.6, 8.5, 8.1, 8.0, or 7.0 to SecureLogin 9.0 in your test environment before you upgrade in your production environment.

Contacting Micro Focus

For specific product issues, contact Micro Focus Support at <https://www.microfocus.com/support-and-services/>.

Additional technical information or advice is available from several sources:

- ♦ Product documentation, Knowledge Base articles, and videos: <https://www.microfocus.com/support-and-services/>
